

Monitoring boats is easy and affordable

VoltSense offers boat owners the ability to monitor the health of their boat in real-time, providing detailed information about the boat's electrical system, location and overall well-being. This solution is designed to increase the comfort and safety of the boat, while reducing maintenance costs and preventing potential problems.

VOLTSENSE P2

Integrated SIM,
e-SIM or SoftSIM

Ezurio BL654 to
connect wireless
sensors and e-paper
Display

Up to three Battery
connections plus
bilge pump monitor
