# EVENPRODUCTS STEEL

Our water tanks are made from steel coated in MagiZinc® ZM310, a strong and durable material developed by Tata Steel in the UK. The special zinc coating, with added magnesium and aluminium, provides extra protection against rust and wear.

## Designed to International Standards

Each tank is made using high quality and tested manufacturing procedures, following **ISO9001** and **BSEN1090 Class II (UKCA/CE MARK)** certifications. This also includes approval for welded elements.

## Tested and Traceable

Our materials are tested for coating, thickness and gauge. Fully traceable, for transparency and compliance with strict safety and environmental standards.

## Built for Strength and Flexibility

Our tanks are made from high-quality **S280** and **S390** structural grade steel and designed with a class leading 40% safety margin for extra strength and reliability.

## Sustainability at the Core

- UK manufacturing reduces carbon footprint
- Durable designs extend replacement cycles
- **ISO 14001** certified for environmental protection

# EVENPRODUCTS STEEL TANK

## Scan for Our [Size Guide](#)

Capacities range from 2m<sup>3</sup> to over 2,000m<sup>3</sup>

## Panel Options

Short panel variants available to improve shipping efficiency.

## Expandable & Linkable

Easily connect multiple tanks for more storage

## Scan for Our [Installation Video](#)

Designed for easy transport and quick setup, our tanks come with clear instructions for a hassle-free installation. Visit our YouTube channel for step-by-step 'How To' guides.

## Key Benefits

Designed for easy transport and quick assembly

Easily moved and reused as your needs change

Ideal for industrial, agricultural and commercial storage

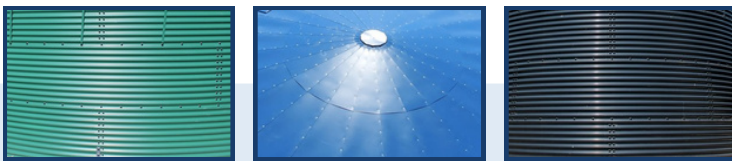

Built to withstand tough conditions

# EXTRAS

## Powder Coating Options

- Choose a colour that fits your environment from our wide range of RAL Colours
- Adds durability, making tanks resistant to harsh conditions, including coastal and industrial areas
- With UV & weather resistance, powder coating can shield against extreme temperatures and prolonged sun exposure
- Customisable for branding or aesthetics by matching company colours or blend into the surroundings

## Rust-Resistant Fittings

- Outlets available in galvanized steel, stainless steel, and PVC, with sizes ranging from 1" to 12" to suit different environments and specific needs.
- Long-lasting nuts, bolts and washers coated with sheraplex.
