Rosin Resins for Hot Melt Adhesives

This series of rosin resins features a light color and low odor. They are compatible with various polymers and improve the tack performance of hot melt adhesives.

Product Type	Softening Point (R&B), °C	Acid Value mg/g	Melt Viscosity (150°C), cp	Color, Gardner
138	87~98	≤15	300~800	≤6
KE95F	87~97	≤20	350~850	≤6
JB100W	90~105	≤30	/	≤1
KE100AL	97~103	≤20	850~2000	≤5
146	99~107	≤40	850~2000	≤5
KS2100	100~108	≤30	1000~2000	0~1.5
KA100L	100~108	≤30	1000~2000	2~3
KA120	117~123	≤25	6000~16000	3~5
