Designed for Long-Term Reliability

Places where safety is critical.

From extreme weather conditions to remote locations

Technology & Reliability

- **IP68:**

  Completely waterproof, dust-free and protected from environmental influences

- **5 years battery life:**

  The extremely low energy consumption reduces maintenance and reduces the cost of ownership.

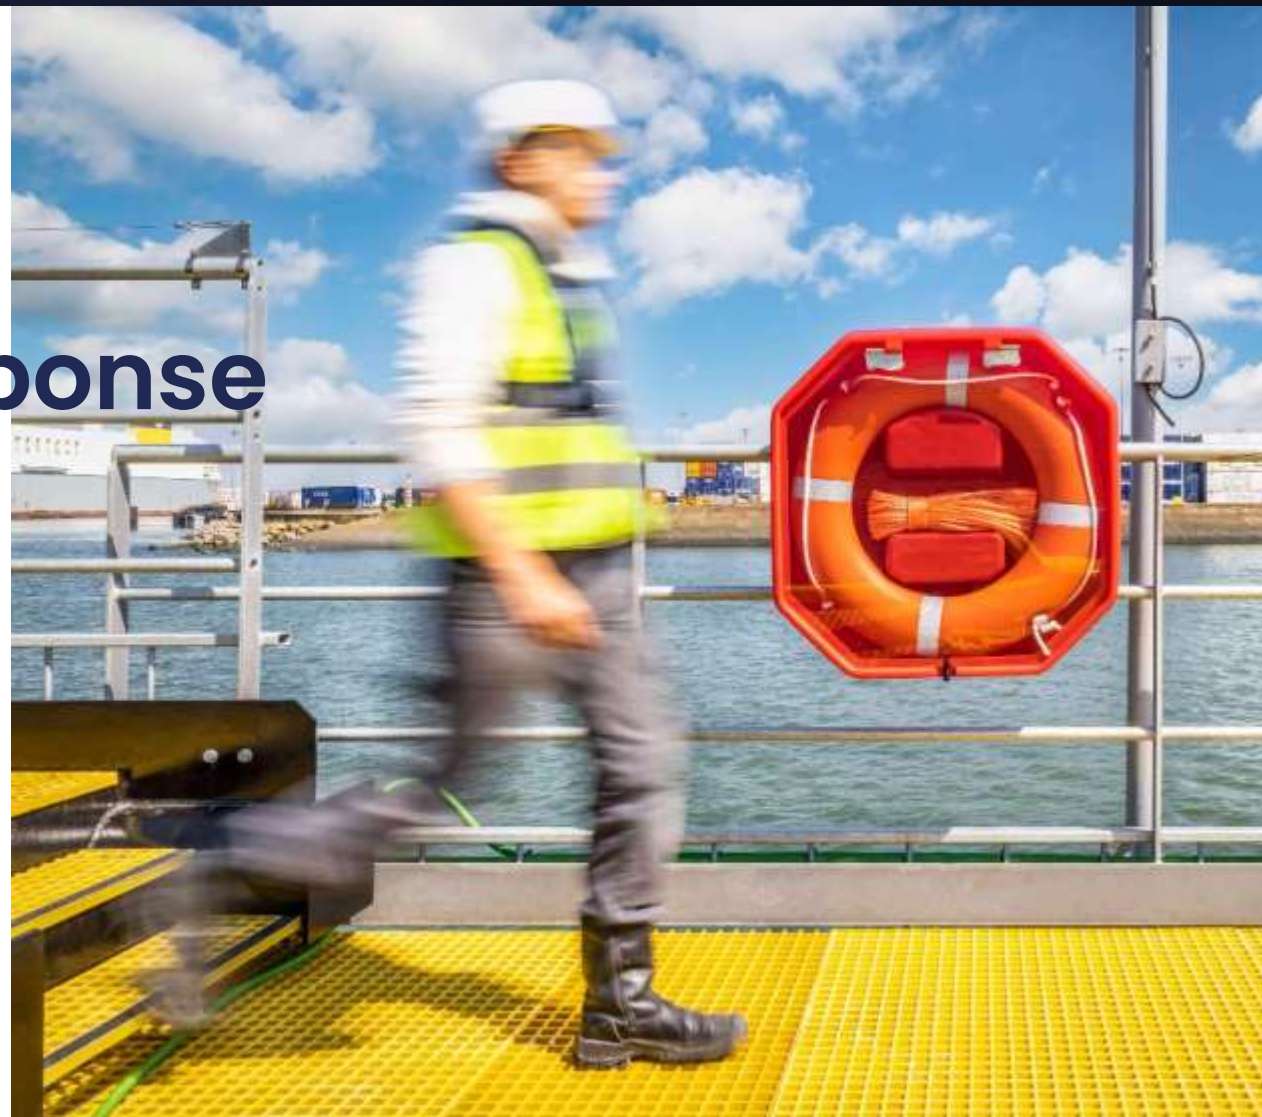

- **4G/LTE Connectivity:**

  Stable communication over established global mobile networks for alerts and status updates.

Faster Emergency Response

The Smart Lifebuoy® sends an immediate alert

Faster interventions

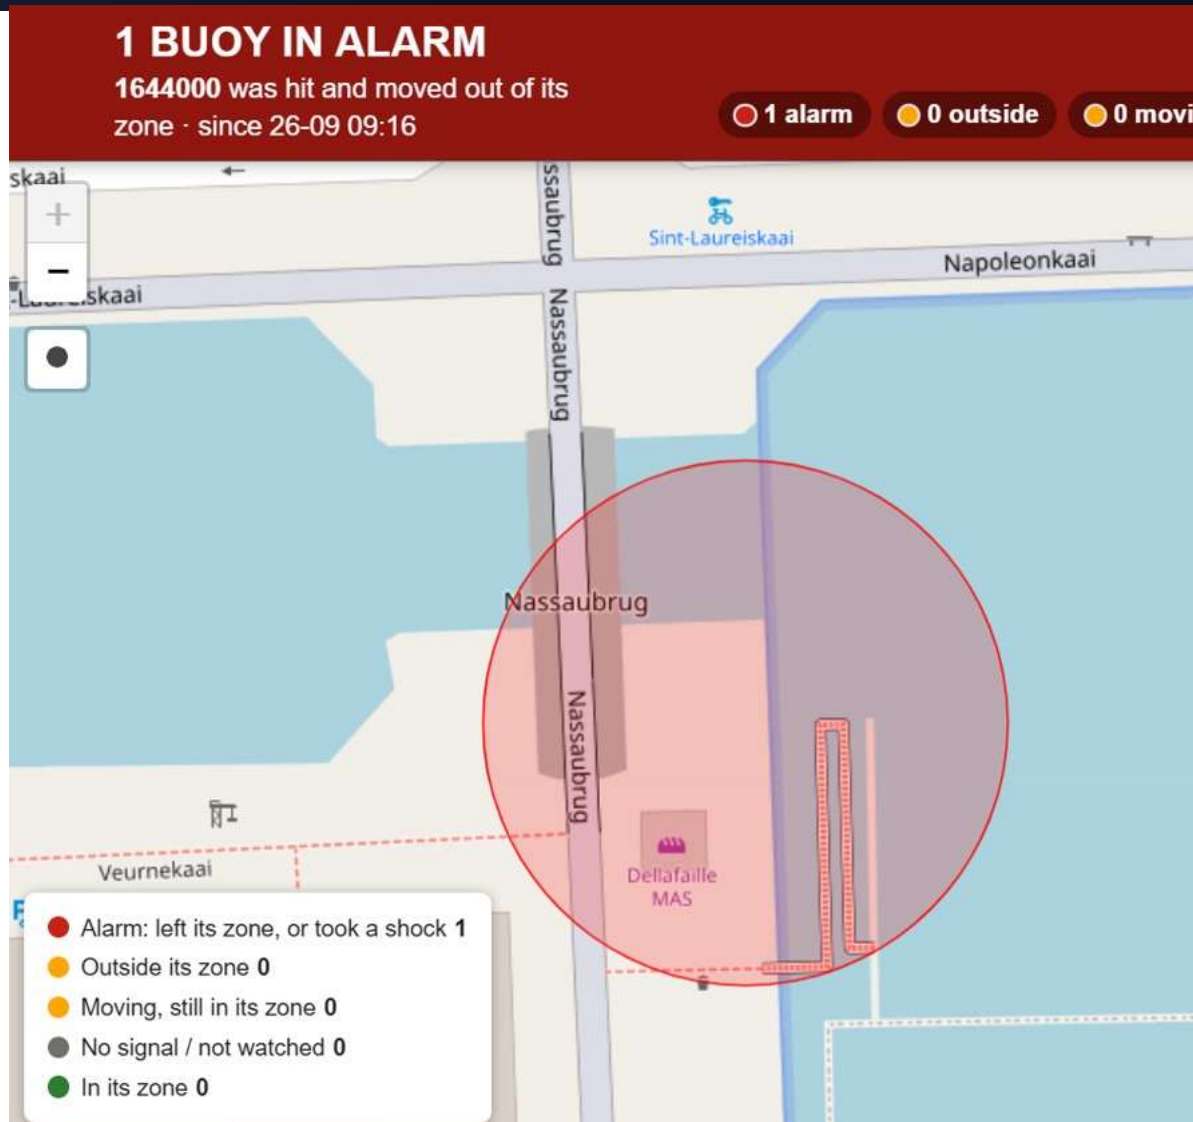

- **Immediate** notification of incidents
- **Faster** emergency response
- **Optimal** coordination of rescue operations
- **Live** tracking of drowning person on map

Key Benefits

Works with 3 triggers

- Geofencing
- Movement
- Shock

Tracker & Subscriptions

~~NO TRACKING~~

- Lost rescue equipment
- Reliability issues
- Expensive and time-consuming inspections
- Slow response time in emergency situations
- No reporting and regulatory compliance

24/7 Smart Tracking

- Real-time location and asset monitoring
- Global access to the security audit platform
- Cost savings due to fewer inspections
- Immediately deployable
- Comply with ISO standards and liability risks

Tracker & Subscriptions
