OUR COMPANY PROFILE

MSM Yacht Interiors started his journey in 2017 at its 3500m2 Cayirova,Kocaeli factory. Currently within 100+ tech experts and administration team, continues his activities in our new factory in Altinova/Yalova.

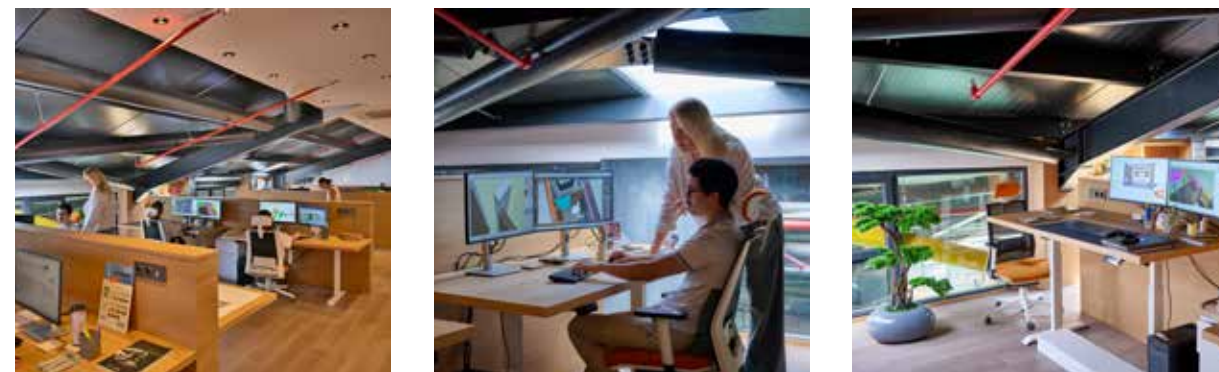

As MSM Yacht Interiors, we aspire to implement and manufacture premium interior & exterior furnishing designs for new build and refit yachts. Our work is powered by technology and research knowledge.From our design studio, we start our design & manufacturing process from scanning, 2D,then to 3D modelling, nesting and transfer all datas to manufacturing ateliers.

We focus on bunching together the new build and refit yachts' interior design furnishings, from concept stage to detailed design, implementation and manufacturing projects.

OUR MANUFACTURING STUDIO

We have inhouse interior & naval architects who leads all our projects from scanning to 2D & 3D drawing sets, modellings, concept to detailed design-implementation project phases. Our studio team handles the project due to design management stages as well.

CORE BUSINESS

New Build Yacht Furnishing

We organise our interior design due to total area planning or seperately room areas,ceilings and wall claddings, additional loose furnishings for indoor and outdoor areas of yachts.

Our 25 years experienced knowhow leads our precious path of interior planning for prerogative yachts.

Refit Yacht Furnishing

Up-to-date, fast fashion trends should change, but gusto lasts..With small touches to an old fashioned or an aged beauty may transform into a masterpiece by virtues of our craftsmen's talents and advisory hints.
