

#### SUITABLE SURFACES

Ceramic Tiles

#### ABOUT MICROGRIP TILES

GripFactory MicroGrip Tiles is the invisible anti-slip solution against slippery and / or damp floors, stairs and other surfaces made of ceramic tiles. GripFactory MicroGrip Tiles is a liquid (GRIPliquid) that makes microscopic grooves in the top layer of the smooth floor. After a treatment with GripFactory MicroGrip Tiles, nothing has changed optically on your floor, but the water can now easily flow away from under feet, shoe soles or car tires, creating more grip and minimizing the risk of slips or slides.

#### TECHNICAL DATA

Topic	Result
Content	5 or 25 L
Aspect	Oily
Density at 20 °C	1010 kg / m <sup>3</sup>
Physically	Liquid
pH	4.2
Solubility property	Soluble
Ignition temperature	Non-flammable (>60 °C)

#### SAFE STORAGE

Avoid sources of heat, radiation, static electricity and contact with food.

Maximum storage temperature (°C)	40
Maximum storage time (months)	60

#### DISPOSAL CONSIDERATIONS

##### Waste management:

In case the container has been in direct contact with the product, it will be processed the same way as the actual product. Otherwise, it will be processed as non-dangerous residue. We do not recommended disposal down the drain.
