1.- MSC GREENHOUSES INTRODUCTION

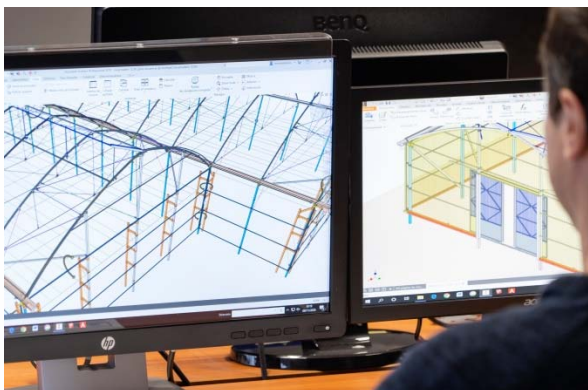

MSC Greenhouses is a leading company in the protected agriculture and agricultural engineering sector.

With more than 30 years of experience, MSC Greenhouses has structures factories in Pamplona (Spain) and Guadalajara (Mexico), in addition to facilities and projects of different dimensions in more than 60 countries.

Thanks to the technological equipment of our factories, we design and manufacture greenhouses adapted to each region, climate conditions and crop. MSC Greenhouses has a multidisciplinary team of experienced professionals in the sector, to guarantee the quality of the projects.

In the team of professionals at MSC Greenhouses, we focus on the realization of the best solution for each client, always taking into account the objectives of our clients and the weather conditions of the region.

Nowadays, we have more than 100 professionals working in these different areas.
