

roboclean *Pro*

WET DUST CANNOT FLY

Using the power of water, Roboclean's incredible filtration system captures 99.99% of dust by weight. The rest of the microscopic particles are captured by the Hepa filter at the outlet, removing 100% of dust and mites from your home.

CATCHES UP TO
OF DIRT

This certification is only awarded to vacuum cleaners that have been scientifically proven to remove all allergens from home environment while retaining allergens within the vacuum cleaner. Testing according to ECARF standards scientifically proves that the certified vacuum cleaner removes a significant amount of allergens from home environment and the allergen is not redistributed by the vacuum cleaner.

Aura Roboclean complies with the requirements of preventative medicine as being a health product. This product is considered suitable for health care.

MULTI FUNCTIONAL CLEANING SYSTEM

DEEP CLEANING

Roboclean has a powerful electro nozzle which uproots deep-seated dirt from the surfaces. It is perfect for cleaning your mattress, carpet and upholstered furniture with its elegant design. Thanks to LED headlights; the dirt in the secluded dark will not escape your eyes.

WASHING FEATURE

Having the wide-range washing accessories and our specially formulated Aura Carpet Shampoo, Roboclean is a perfect solution for a comprehensive cleaning & rinsing of carpets and sofas.

FRESH AIR WITH IONIZER

It's a fact that indoor air quality is much worse than the outdoors. Roboclean works with the same principle of the rain by trapping all unwanted dust and dirt inside its water basin and returns back clean water-washed air inside your home. Moreover, Roboclean's ion generator gives negative ions to remove the small particles in the air. This helps to reduce odors and make your indoor air fresher.

VACUUMING

Roboclean PRO allows you to place soft furnishings into a vacuum bag to remove dust and mites from the interior of the items. This feature can also be used to reduce your storage space for unused items.
