

IRIDIUM GO! EXEC®

PORTABLE SATELLITE-BASED HOTSPOT FOR SMART DEVICES

Powered by Iridium Certus 100, Iridium GO! exec® delivers portable wireless access for voice and data communications while at sea. Battery-powered, compact, and lightweight, this state-of-the-art device dramatically extends the capabilities of any smartphone, laptop or tablet by creating a satellite-backed Wi-Fi hotspot for social media, light web browsing apps, email, and more. Iridium GO! exec® offers multi-user access for up to two voice calls or multiple data connections simultaneously. Simply flip up the integrated omni-directional antenna to automatically access the global satellite network. Moreover, users can register for 24x7 SOS monitoring from IERCC, a third-party emergency response coordination center. Iridium GO! exec® is ideal for vessels on the high-seas, leisure, fishing, and emergency communications.
