Aries SECURE

THE EVOLUTION OF THE PROFESSIONAL SCRAPER

Aries Secure is not a simple removal tool, but a **3-in-1 system** designed to raise **safety** and **simplicity** standards on sites. It is the definitive solution designed for **those looking for universal equipment**, able to switch from one task to another without complications and without risks, regardless of the operator's experience.

Why choose Aries Secure

Multi-blade system

thanks to the three interchangeable sliders, it holds blades for glass, for surfaces and the new plastic blade

Guided safety

the two-hand procedure for blade replacement is quick and safe

Protective design

every detail, from the end-of-stroke click of the sliders to the dedicated blade cover, is designed to prevent accidental contacts

Innovation in every detail

Protective blade cover

Maximum safety during transport and storage

Release button

Quick and guided blade replacement

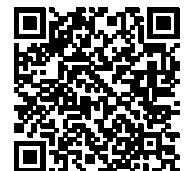

Ergonomic soft grip handgrip

Rubber coating for a stable and comfortable grip

Lampo System

Quick and safe connection to telescopic handles and poles

Watch the video

Slider and plastic blade

for the most delicate surfaces (such as laminates), designed to drastically reduce the risk of accidental cuts

Slider and blade for glass

for maximum precision and flexibility

Slider and blade for surfaces

for resistance on stubborn dirt

The blades

BLADES ARE NOT ALL THE SAME

Thickness, shape and material define the field of action.
Choosing the **correct blade** means **doubling the effectiveness** and **eliminating risks**.

BLADE FOR HARD SURFACES - Structural resistance

With a thickness of 0.4 mm, it is **designed to withstand strong stress** on uneven surfaces such as marble and industrial floors.

The **blunt side**, usually exposed for safety, is ideal for removing coarse dirt, while the **sharp side** ensures precise cleaning when necessary.

BLADE FOR GLASS - Adaptive flexibility

The reduced thickness of 0.2 mm allows the blade to **bend and adhere perfectly to the flatness of the glass**.

The **double sharpening doubles the life cycle** of the consumable, ensuring a smooth removal of stickers, paint and encrusted dirt.

Double blade

PLASTIC BLADE - The smart alternative

Made of anti-deformation, elastic and recyclable polymer.

It is the **"Safety First"** solution.
Not sharp, it **eliminates the risk of injuries** and **minimises the risk of scratches on laminates**.

The scrapers

A SCRAPER FOR EVERY CHALLENGE: CHOOSE YOUR ALLY

The effectiveness of professional cleaning lies in **choosing the correct tool**. The range of **TTS scrapers** is designed to offer **specific performance according to the type of dirt and the surface to be treated**.

From the removal of limescale residues and encrusted dirt on hard surfaces, to precise cleaning on windows, each model guarantees maximum operational effectiveness, reducing time and effort.

ARIES

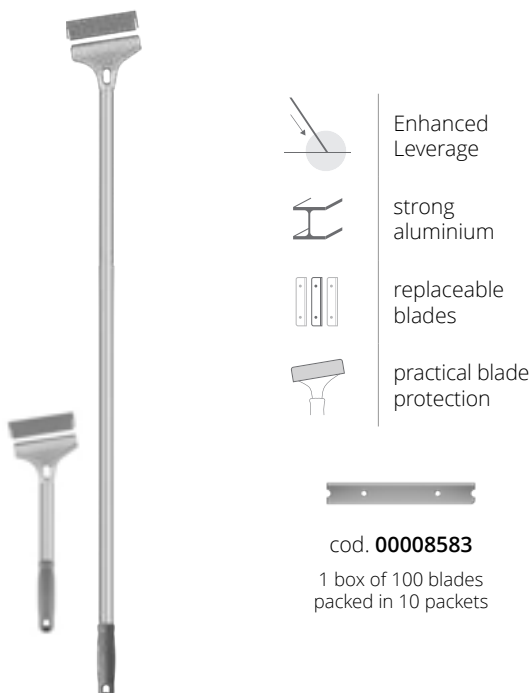

Ergonomics and safety

cod. 00008550YL

The scraper is designed to offer total control and superior stability during use.

• **Ergonomic:** the contoured, rubber-coated grip ensures a firm and stable holding position, reducing fatigue.

• **Versatile:** to be used with TTS handles and poles.

ARIES with handle

Leverage effect

cod. 00008557 - 120 cm

cod. 00008555 - 25 cm

The ideal solution when greater pressure or higher reach is required.

• **Enhanced Leverage:** the 25 and 120 cm handle allows you to exert greater force with less effort, making it easier to clean large areas.

• **Control:** the balanced structure allows precise guiding of the blade on the surface to be treated.

The choice

replaceable blades

practical blade protection

squeegee handle compatible

cod. **00008593**

1 box of 100 blades packed in 4 packets

CLIP

The scraper for window squeegee grips

cod. **00008572**

Developed to be the compact accessory always ready-to-use for the window cleaning professional.

- **Practical:** designed to be connected directly to TTS window squeegee grips, optimising working times.
- **Safe:** equipped with a dedicated blade cover to work safely and protect the blade when not in use.

quick operations

pocket scraper

replaceable blades

cod. **00008585**

1 box of 100 blades

HANDLEY

The pocket scraper

cod. **00008560**

The specialist for finish cleaning and quick operations.

- **Retractable Blade:** a safe mechanism that allows the blade to be stored inside the scraper body, making it perfectly pocket-sized.
- **Handiness:** designed exclusively for manual use, it offers maximum sensitivity in removing small residues or labels from glass.
