

# Why Choose NSF For Your Products And Materials

Choosing the best option to certify your product or material is an important decision. Many factors can influence your certification experience. We want you to know what you can expect by choosing NSF as your certification body.

## Our people know your people

**We know your company and your product.** When you have a request, your **dedicated account manager** will work with you throughout your certification process.

"I rated NSF 10/10 because of our account manager's knowledge and the excellent service."

- A leading manufacturer of o-rings and seals

## Our labs are owned and operated by us

When you send us your sample, you can be confident it will be **tested in the highest quality laboratories**, by highly qualified technicians, who will make sure you receive **results you can rely on**.

Our laboratory in **South Wales** is one of the largest in the world, specializing in water fittings. Our largest laboratory is located in **Ann Arbor, Michigan**.

We operate over **303,000 square feet** of ISO/IEC 17025-accredited, state-of-the-art labs in North America, Latin America, Europe and Asia.

## We help protect your company from risk

NSF's standards group facilitates the development of many NSF/ANSI standards, so we have the **best knowledge of their application**. We are a **trusted organization** as these standards have been referenced in regulations and guidelines.

Accredited by the American National Standards Institute (ANSI), NSF has developed over **85 currently active standards**. NSF/ANSI standards are developed through a public process that ensures balanced input from industry representatives, public health/regulatory officials and users/consumer representatives.

## Track your project status anywhere, anytime

With our **NSF Connect** customer portal, you get total transparency into your work orders as well as **access to data and metrics**.

NSF Connect is an easy place to submit documentation, a hub for all your certification information, making your life easier!

**NSF Connect** is an industry leading portal designed based on client feedback. It's customizable so it can reflect your needs and preferences.

## Our mark is known around the world

Your customers often require the **NSF mark** on products, which other certifiers cannot provide - even if they certify products to NSF standards. The mark helps you to **sell to your customers**.

"I chose NSF because the mark is well recognized in the industry."

- Sergio Trevino from Omnipure Filter Co (via customer survey)
