### Dry dock

- › 3x floating drydocks up to 79.5 x 23 x 6 m
- › Lock to North Sea, 144 x 16 m

# Proud to be genuine shipbuilders

Damen Maaskant has been a commercial shipyard for over 75 years. We specialize in high quality refit and conversions as well as new buildings. Since 1948 we've delivered over 280 fishing vessels, research ships, support boats and explorer yachts.

"In 2020 we started yacht refits and conversions when owner reps and yacht captains started approaching us. They value our simple no-nonsense mentality. Every one of us feels a sense of responsibility and pride in what we do.

We expanded our team with experienced refit experts who have worked at the top Dutch yacht building yards. We were careful to make sure they share our mentality. We are genuine shipbuilders and that sets us apart."

**Eric Moerkerk** Managing Director

Rebuilt of 60 metre superyacht

Conversion from fishing trawler to 46 metre hybrid propulsion expedition yacht

New covered yacht refit facility 70 x 20 x 18.5 m
