

**SPRINGFIELD MARINE** proudly introduces our most recent international acquisition, Shark Seating—the most affordable, comfortable, and high-performance suspension boat seats to improve boater safety.

- **Superior Suspension and Safety**  
Provides 5.9 inches of ultra-smooth travel, is corrosion-proof, and can withstand up to 8G impact forces.
- **Affordable, Comfortable, and Safe**  
The innovative FLEX-pod suspension unit, paired with the Ultra-lite seat, ensures maximum support and durability.
- **Lightweight and Compact**  
Fully compresses to 3 inches, weighs only 7.28 lbs, and total less than 15 lbs with the Ultra-lite seat.

WHAT DOES  
shark  
STAND FOR ?

**SAFETY** was the founding premise of Shark, with our primary goal being to reduce the risks to boaters from wave impacts. Our designs are human-centric, designed to work intuitively, ergonomically and in harmony with every aspect of human nature, even in harsh environments.

**HONESTY** is a core value: our media outreach is true to our vision and values and will emphasize fun, freedom, companionship, self-image, safety and mutual respect and we will be true to our humble, straight-forward and friendly New Zealand origins.

**AFFORDABILITY** is our middle name. We make first-class protection accessible to all boaters (recreational to defense) with suspensions that are the most affordable on the market.

**RELIABILITY** is a key attribute that Shark emphasizes to meet the needs of our customers and team members. We do this by making elegantly simple and durable products, which are well-stocked and supported in every market and sector.

**KINETICS** Shark Seating utilizes ergonomic design principles to effectively disperse kinetic energy. Engineered products that are elegantly simple and durable ensure our seating solutions perform reliably across every market and sector.

LIGHTWEIGHT, AFFORDABLE AND  
HIGH-PERFORMANCE SUSPENSION

## FLEX-pod *Super light and super compact*

LESS  
than  
8 lbs!

Picture shows *FLEX-pod* fully compressed

Weighing in at only 7.28 lbs, **FLEX-pod** commands space saving performance for nearly any application! **FLEX-pod** allows up to 5.9 inches of vertical travel and can withstand 8G impacts. Combined with our stainless steel shock absorber, Shark Seating eliminates pinch points and sharp edges, offering a compact design that not only protects your back but also saves space and money.

### Seat + Suspension

SEAT	Model	shark <b>ULTRA</b>
