

NEW PRODUCTS 2025

Technology and Design for Lighting.

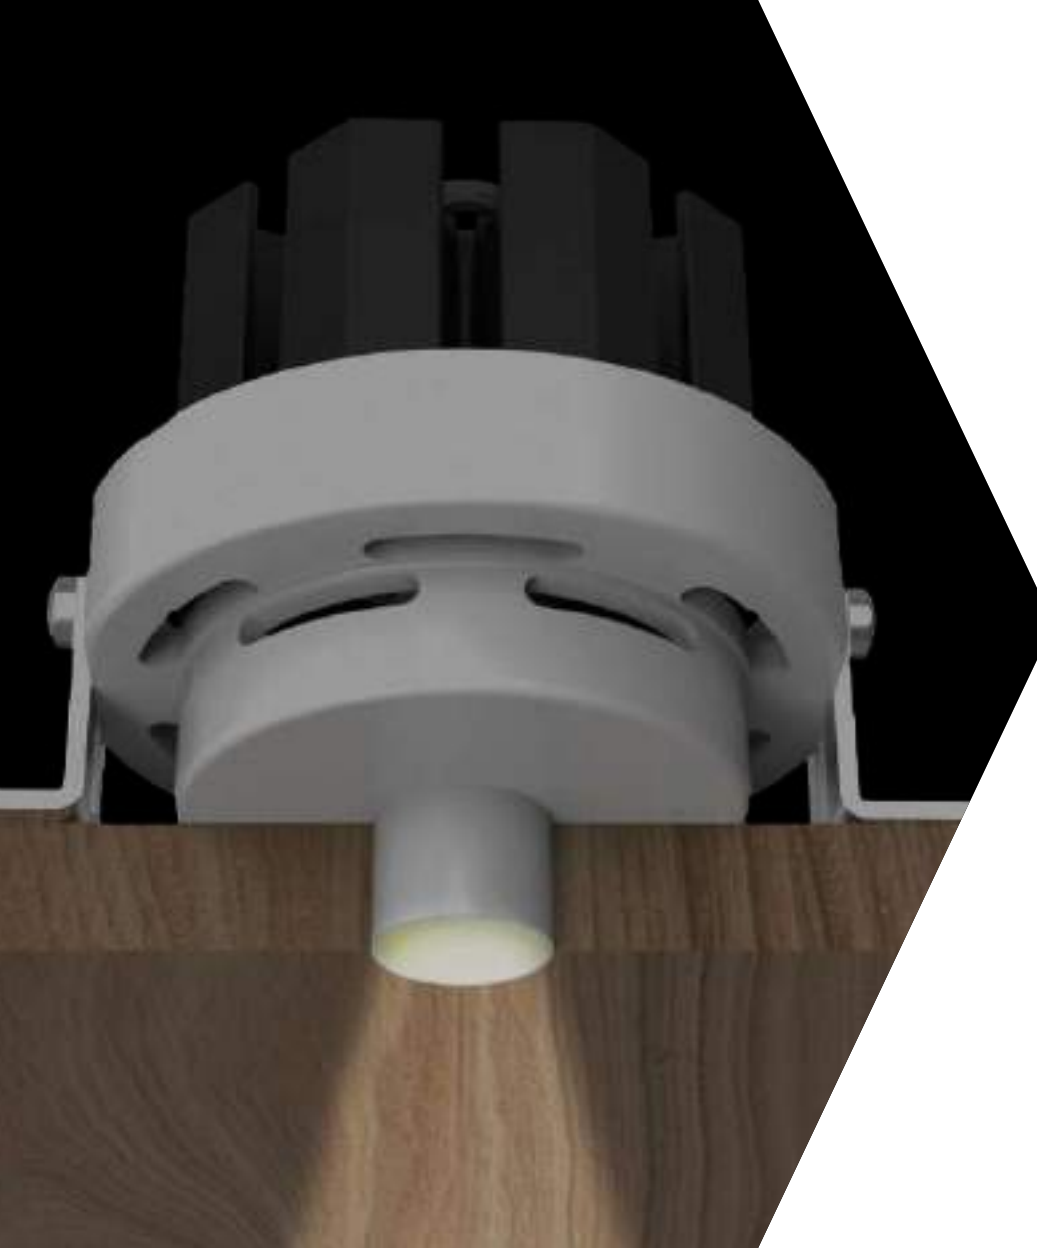

We continuously pursue advancements in design and technology.

With the support of our technical office and the expertise of our skilled artisans in the mechanical workshop, we develop innovative products that respond to specific client requirements, while also allowing space for the expression of our creativity.

PUNTO

Details take center stage thanks to the powerful light output of these luminaires.

Set your focus, define spaces, and enhance the beauty of your yacht's interior.

CUSTOM

A dark, monochromatic photograph of two people working on architectural blueprints. One person is using a pen to draw on the plans, while the other's hand is visible near a ruler. The scene is dimly lit, with light coming from a window in the background. The word 'CUSTOM' is overlaid in white, underlined text.

CUSTOM

Share your vision with us, and we will work collaboratively to design bespoke luminaires inspired by your ideas. By combining your creative direction with our technical expertise and specialised knowledge, we deliver tailored lighting solutions of the highest standard.
