TELESCOPIC BOLLARDS 2023

Your protection in the hands of professionals

BOLLARDS MANUFACTURERS

Ado, as a pioneering company in the manufacture of retractable bollards, we have one of the most comprehensive catalogs on the market, satisfying the needs of our customers.

We offer quality pile drivers at competitive prices, minimizing costs without reducing quality.

We have a range from economical to high-end safety pile drivers, and we also customize pile drivers for installations of other brands, avoiding the costly masonry work of replacing these.

The experience gained over all these years allows us to develop all kinds of solutions for our customers.

STAINLESS STEEL

PCACCES04

☒ Other measures on request.
☐ On request AISI 316.

+ TELESCOPIC BOLLARD ADAPTATION

Adaptation of our retractable bollards to lost casings and/or chassis already installed from other manufacturers. Allowing the replacement of the bollard body and other components without having to carry out masonry work.

We manufacture bollards and components tailored to the customer's requirements, adapting existing elements.
