COMMAND WITH CLARITY

REDEFINING MARINE INTELLIGENCE

iNav4U is pioneering a new category in marine technology; unifying navigation, safety, and vessel management into one intelligent ecosystem.

Built for captains, owners, and innovators who expect more from their tech, our flagship system, Zora 3.0, turns complexity into calm command.

ZORA 3.0
COMMAND WITH CLARITY

ZORA 3.0

ALL YOUR YACHT SYSTEMS, ALL IN ONE SCREEN.

Zora 3.0 is the intelligent operating system for yachts and sailing vessels, a new category that replaces fragmented hardware and disconnected apps with one seamless platform of software and hardware.

ZORA 3.0
COMMAND WITH CLARITY

IT'S NOT JUST ANOTHER SCREEN, IT'S A NEW STANDARD.

One Platform, Not Many

Replace app sprawl with a single OS. Unify charts, weather, AIS, instruments, and vessel systems into one interface.

Intelligence At Work

Rules-based monitoring validates data, watches sources, and flags drift or failure. Smart alerts anticipate issues before they escalate.

Freedom, Not Lock In

Open protocols connect with existing devices, letting you manage & calibrate onboard electronics in one place, with full NMEA diagnostics anywhere.

By Sailors, for Sailors

Designed at sea by lifelong voyagers. Emergency workflows, anchor alerts, and status profiles reflect real conditions, not lab assumptions.

ZORA 3.0
COMMAND WITH CLARITY

ZORA 3.0 *Features*

Situational Awareness

Shows key data: weather, traffic, depth, & systems to prevent false alarms.

Unified Control

Glass switching reduces clutter. Consistent profiles for cruising, sailing, anchoring & docking.

Intelligent Alerts

Tracks thresholds and trends. Clear early alerts without noise.

Emergency Workflow

For POB, fire, medical incident, or breach, Zora guides response and auto-logs.

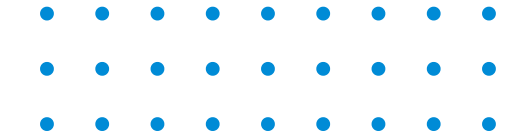

Operations Built In

Manage projects, maintenance, docs, inventory, and expenses in one place.

Access Anywhere

Run on helm, tablets, or screens. Cloud adds remote access and backups.

THE END OF FRAGMENTED TECH, THE START OF CLARITY.

Zora integrates navigation, safety, maintenance, and vessel management into a unified system designed for clarity, confidence, and control.

Where closed systems demand more apps and manual checks, Zora simplifies the journey: fewer tools, clearer signals, and automatic logs for full accountability.

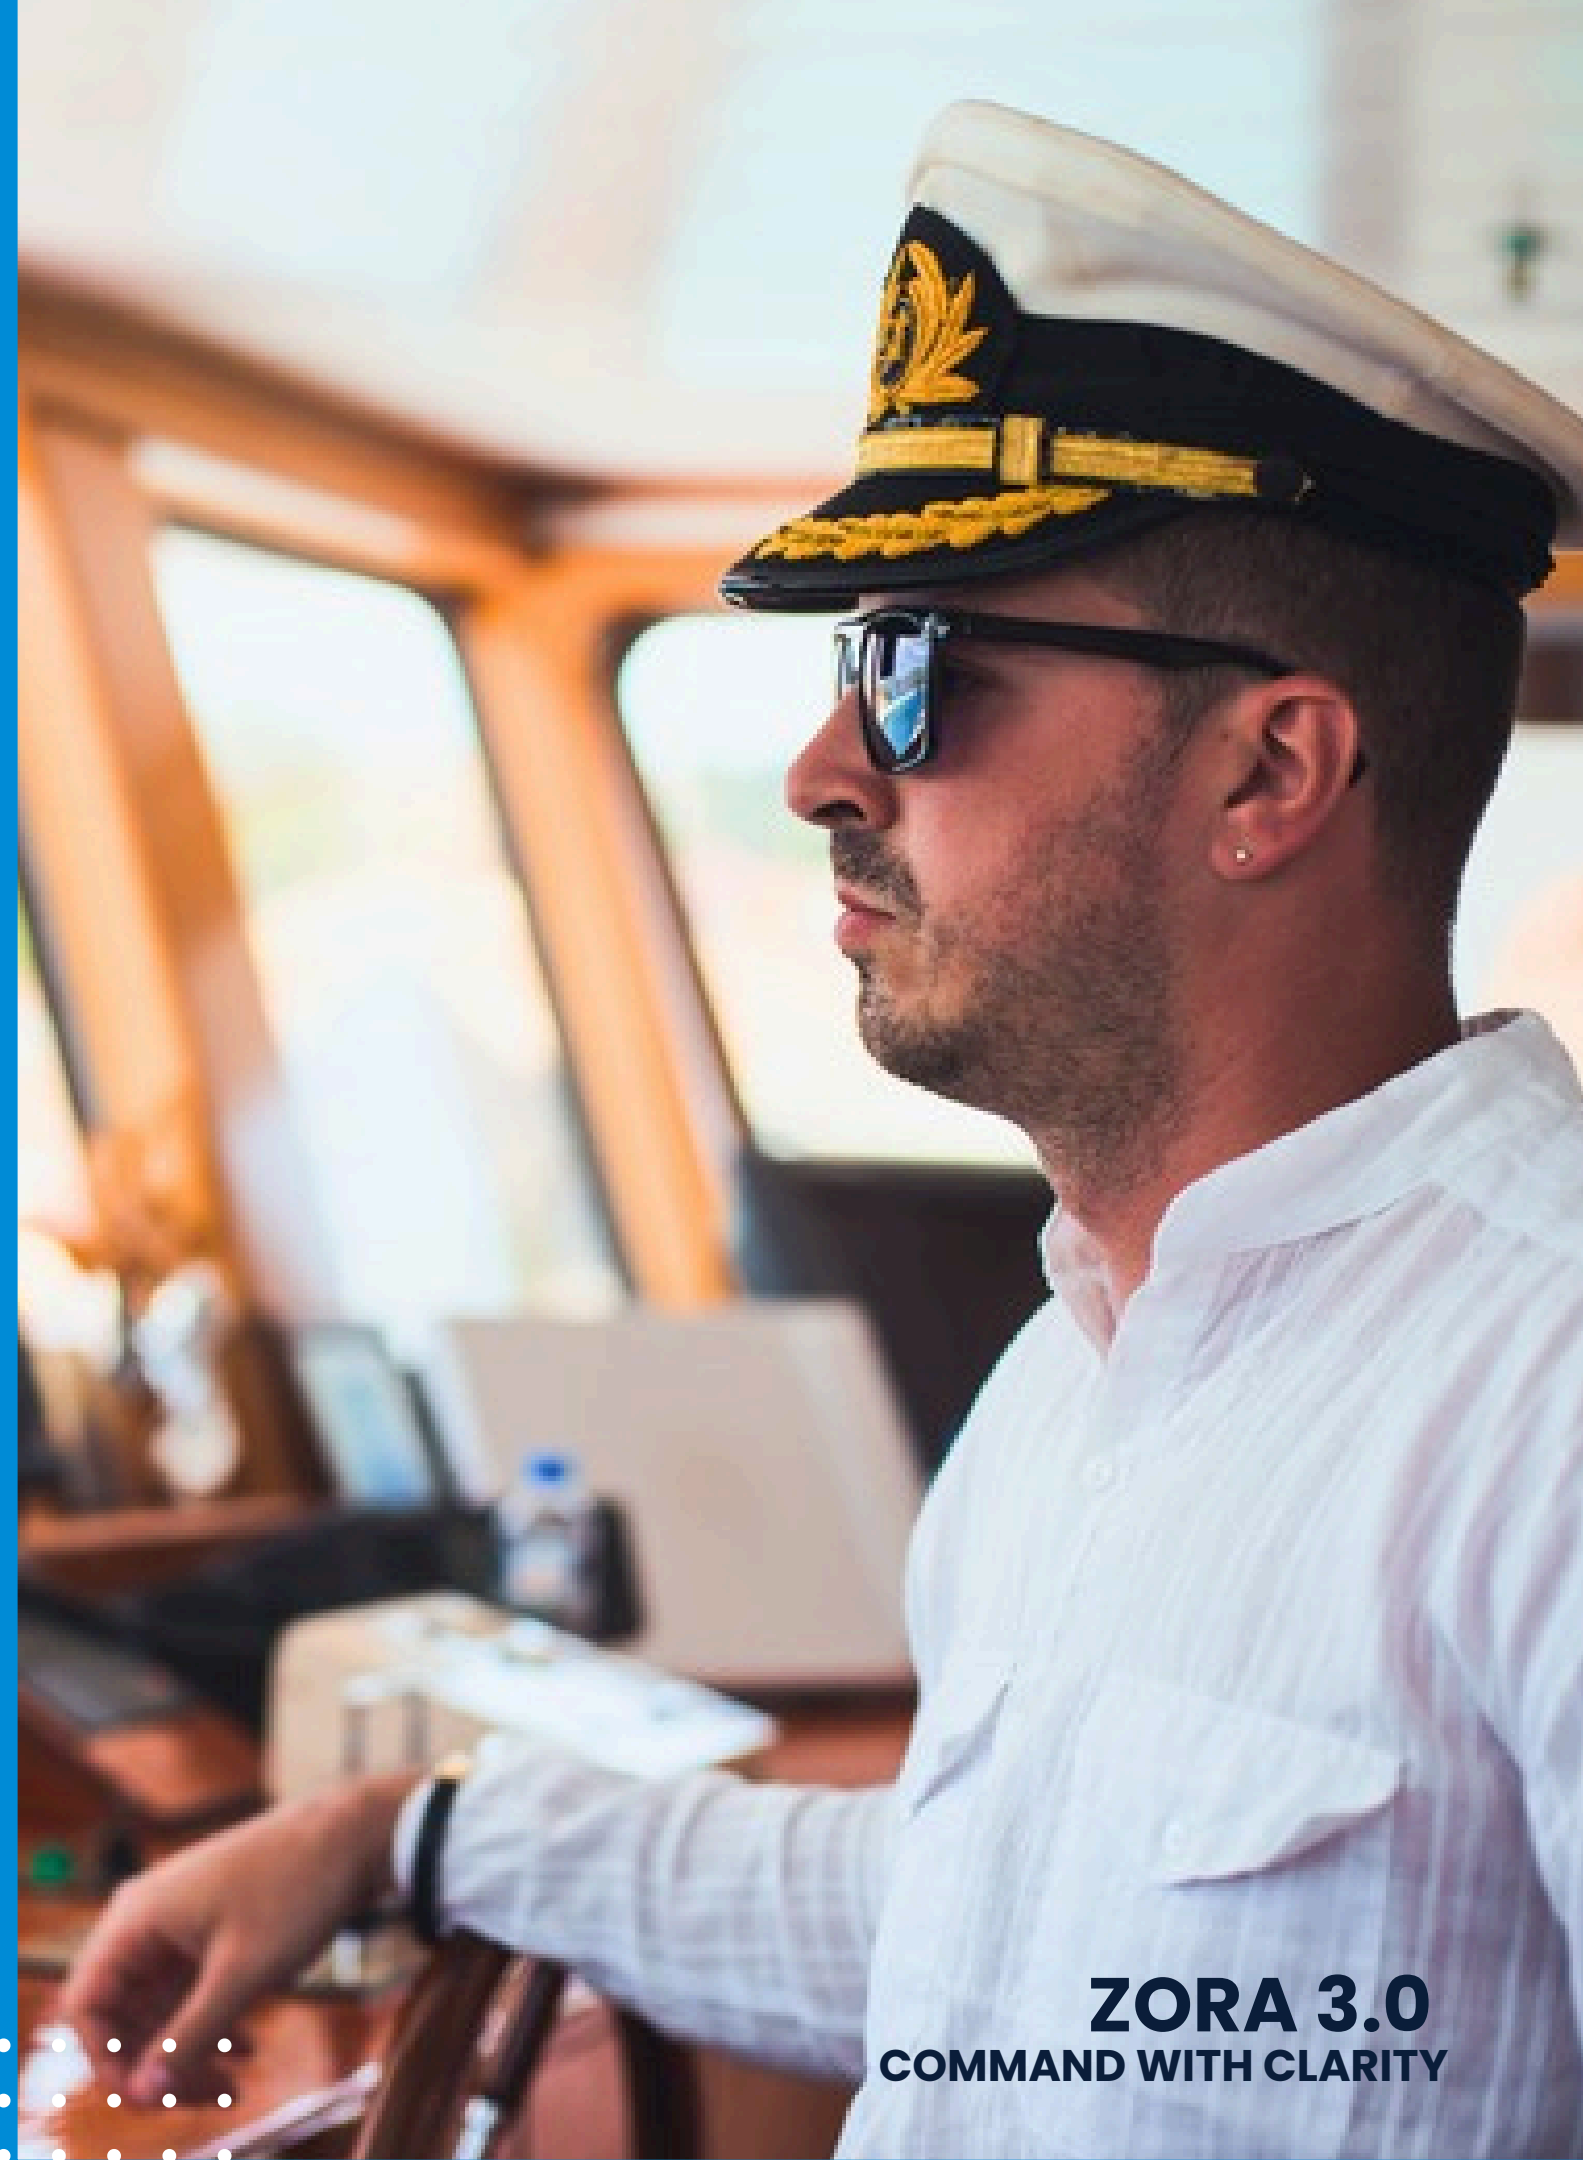

ZORA 3.0
COMMAND WITH CLARITY

FOR CAPTAINS: FROM CHAOS TO CLARITY IN ONE INTERFACE.

Zora provides captains and owners with a unified interface for all onboard systems, including navigation, weather, engines, and crew safety.

This integration enhances real-time awareness and intelligent alerts, resulting in peace of mind, reduced stress, increased confidence, and complete control during journeys at sea.

ZORA 3.0
COMMAND WITH CLARITY

FOR RESELLERS: LEAD WITH THE FUTURE OF THE YACHT OPERATING SYSTEM.

Zora isn't another gadget – it's the first true operating system for yachts. By offering a premium, future-ready solution that unifies hardware and software, resellers gain a powerful differentiator in a crowded market.

Aligning with Zora means stronger credibility, recurring revenue opportunities, and giving clients a solution they can't get anywhere else.

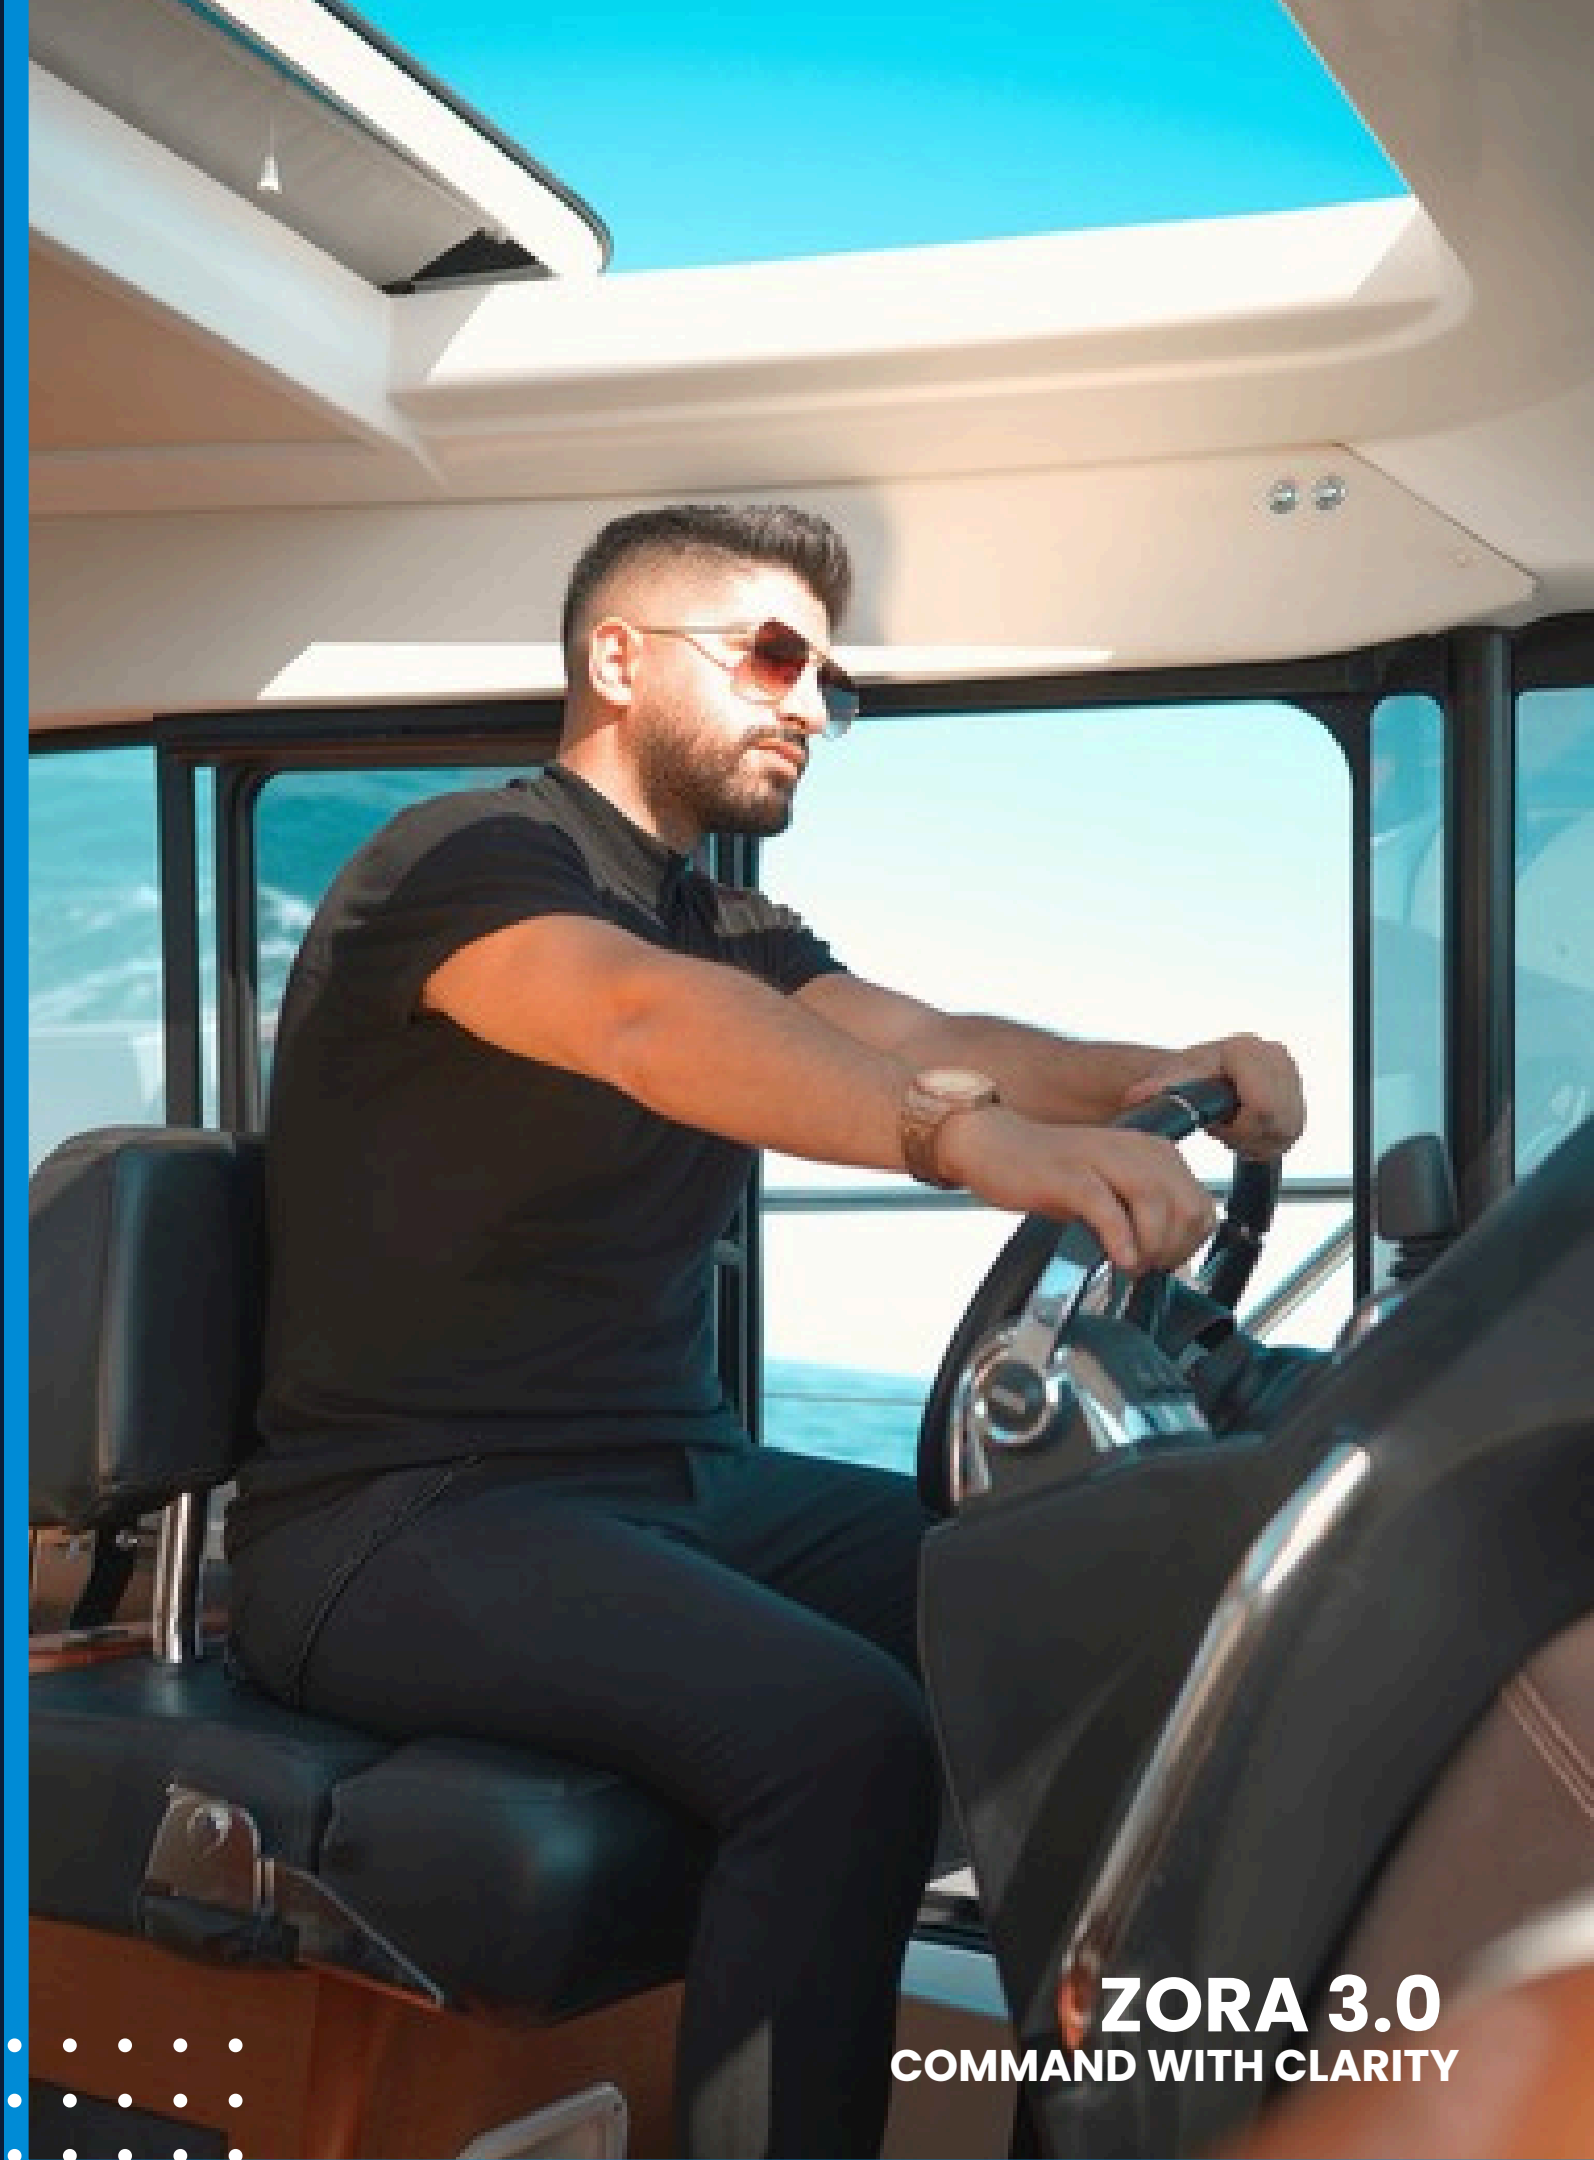

ZORA 3.0
COMMAND WITH CLARITY

FOR MANAGERS & CREW: EVERY DETAIL IS MANAGED, SO YOU CAN FOCUS ON THE JOURNEY.

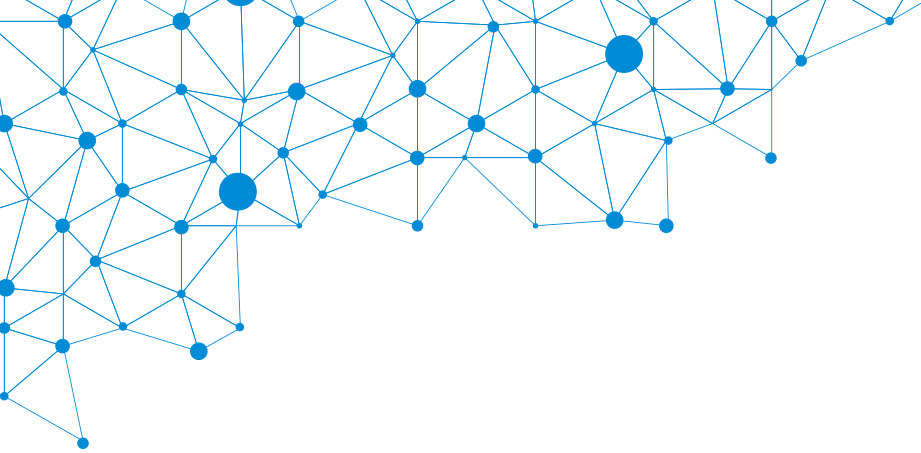

Zora eliminates the burden of paperwork and scattered systems by automating logbooks, checklists, and maintenance tasks.

Every detail is organized and accessible in one place so managers and crew can run the vessel like clockwork, from dock to ocean, with efficiency, reliability, and confidence.

ZORA 3.0
COMMAND WITH CLARITY

FOR DIY-ERS: BE THE FIRST TO NAVIGATE WHAT'S NEXT.

For those who demand the latest innovation, Zora delivers the operating system yachts should have always had.

Sleek, intelligent, and fully integrated, it offers smart features and endless customization that put you ahead of the curve. Be the first to navigate what's next with intelligence at sea built in.

Success Stories

Iain and Brioni - Red Seas

"Our boat is our home, and with Zora managing maintenance and weather, we sail the world effortlessly. It monitors systems and alerts us as needed, letting us focus on our journey and share it with our Red Seas followers."

Rod Stright

"My career with the Canadian Coast Guard focused on safety and preparing operators for sea challenges. I believe Zora will enhance vessel operations by improving situational awareness for all vessel sizes and journeys."

Andy Simonds

"As a former airline pilot, I see Zora as the evolution of multifunction displays, enhancing situational awareness similar to advancements in aircraft instruments."
