Why choose shWOWer

THOUGHTFUL DESIGN

Incorporating a new design accessory into your life onboard without altering the overall design, as it remains unseen when unmounted

MADE WITH CARE

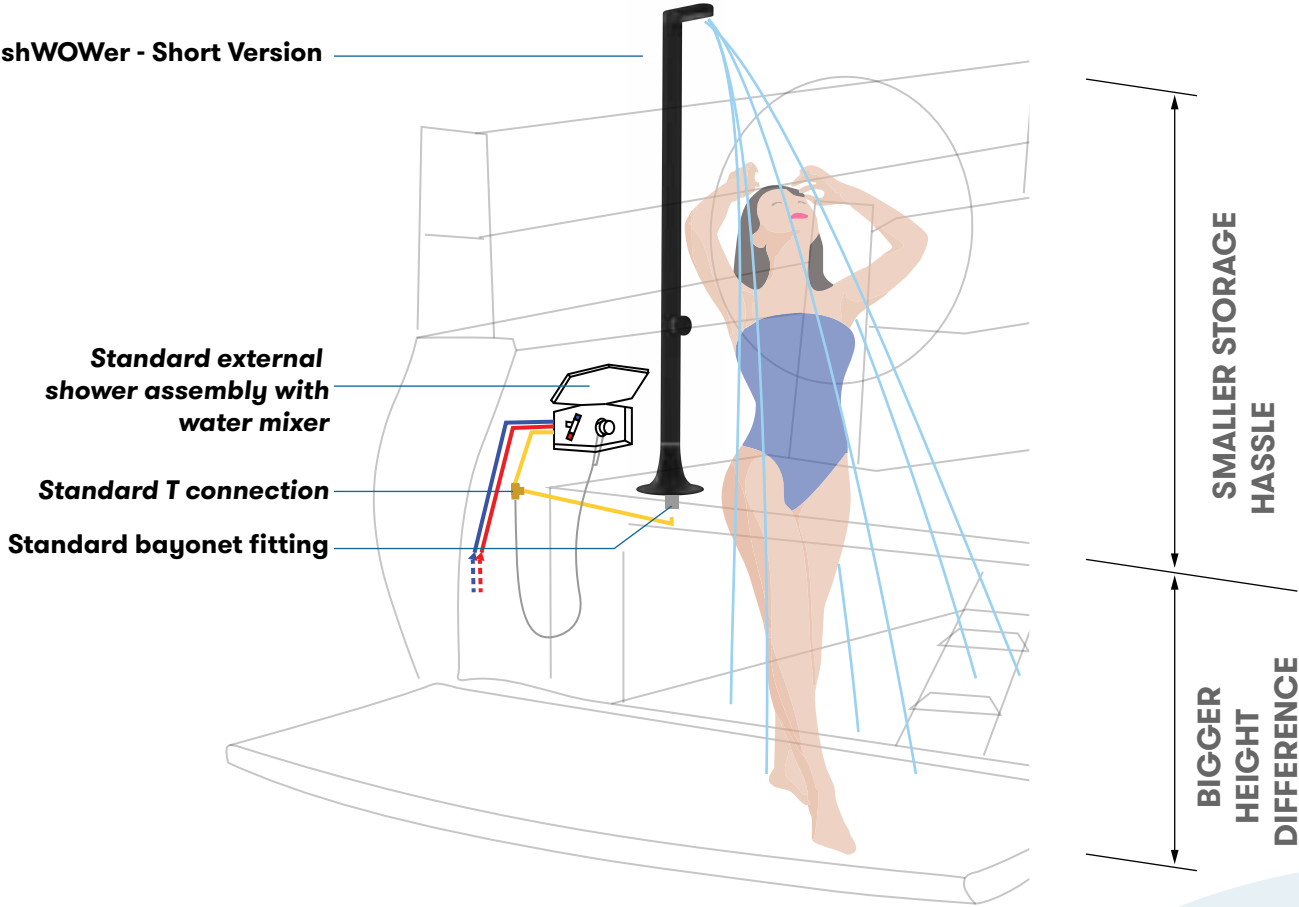

Our product allows you to enjoy a hands-free shower experience, making it easier to apply solids shampoo

DUAL FUNCTION

A lightweight and maneuverable accessory that can be easily stored under-deck, including a dual-use as the deck fitting that can be used as a deck wash plug

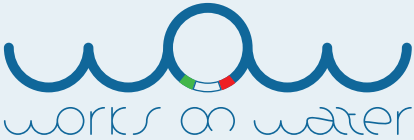

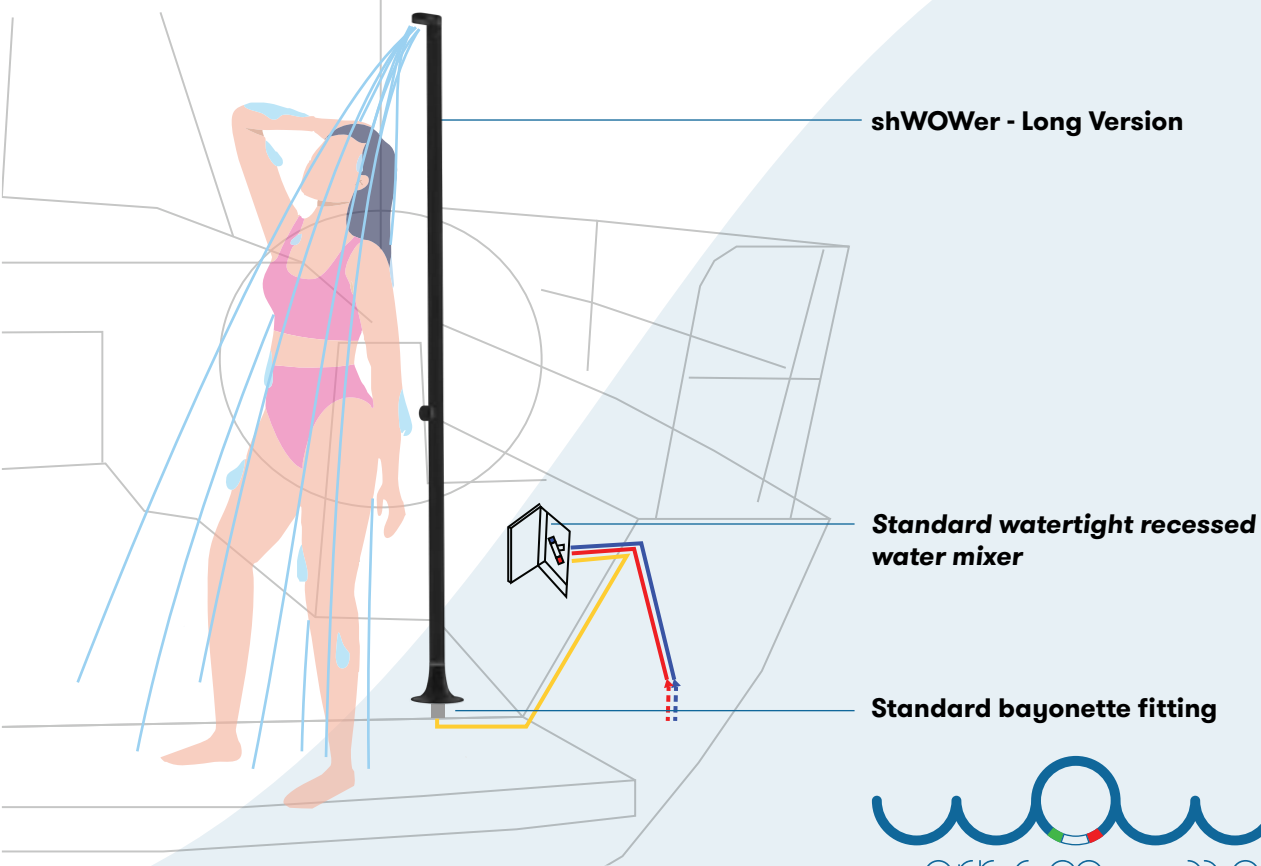

Setup options

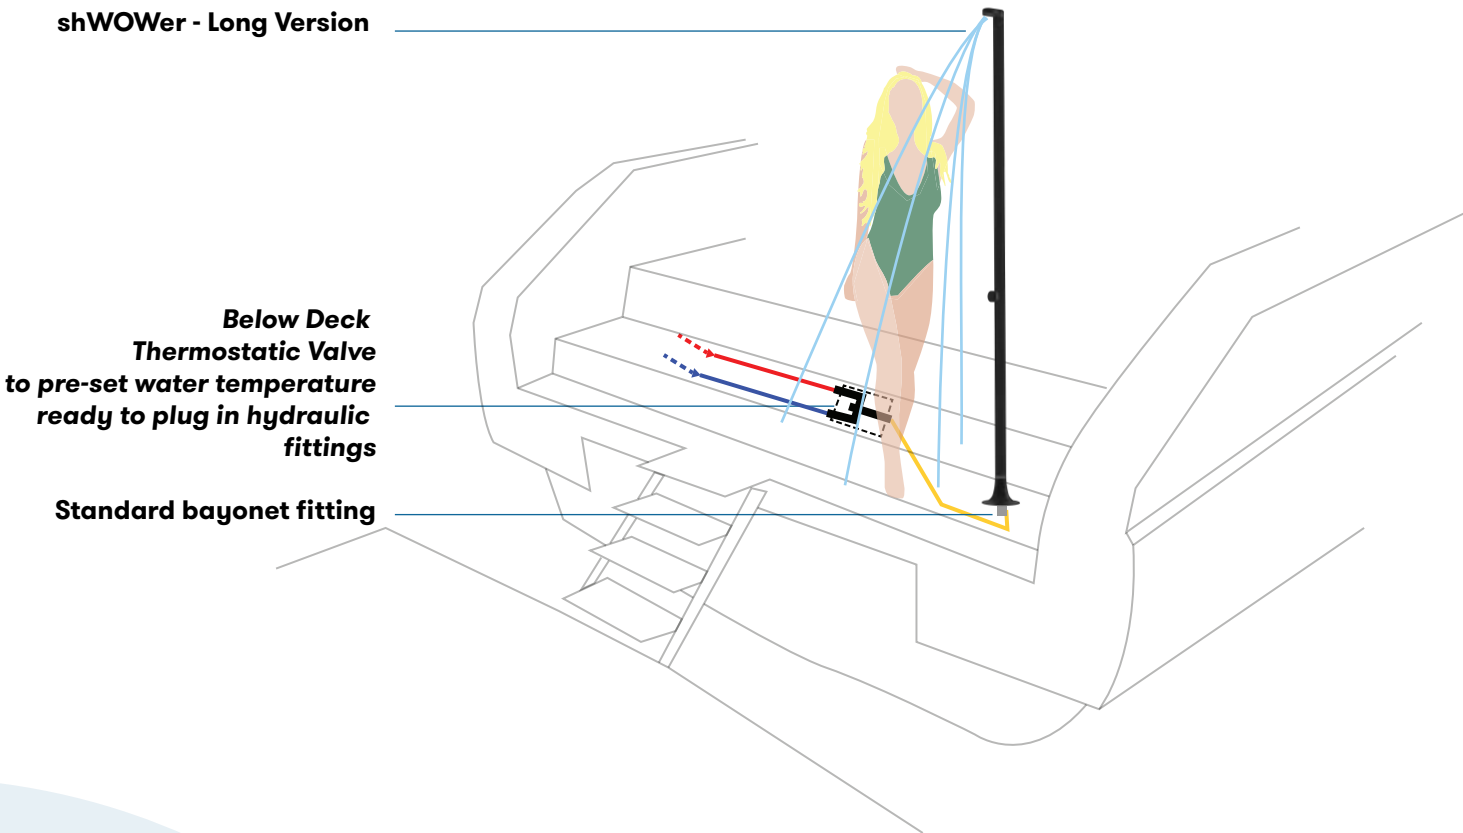

OPTION 1 - plug it in your existing shower system

get your dedicated water mixer - OPTION 2

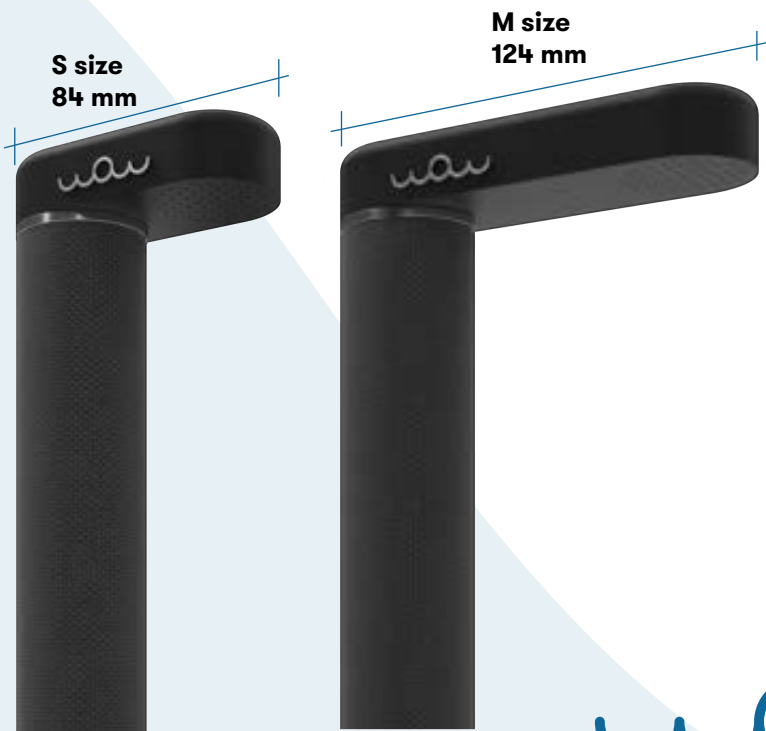

Setup options

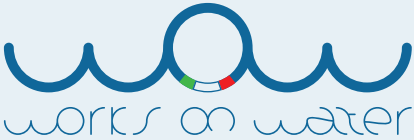

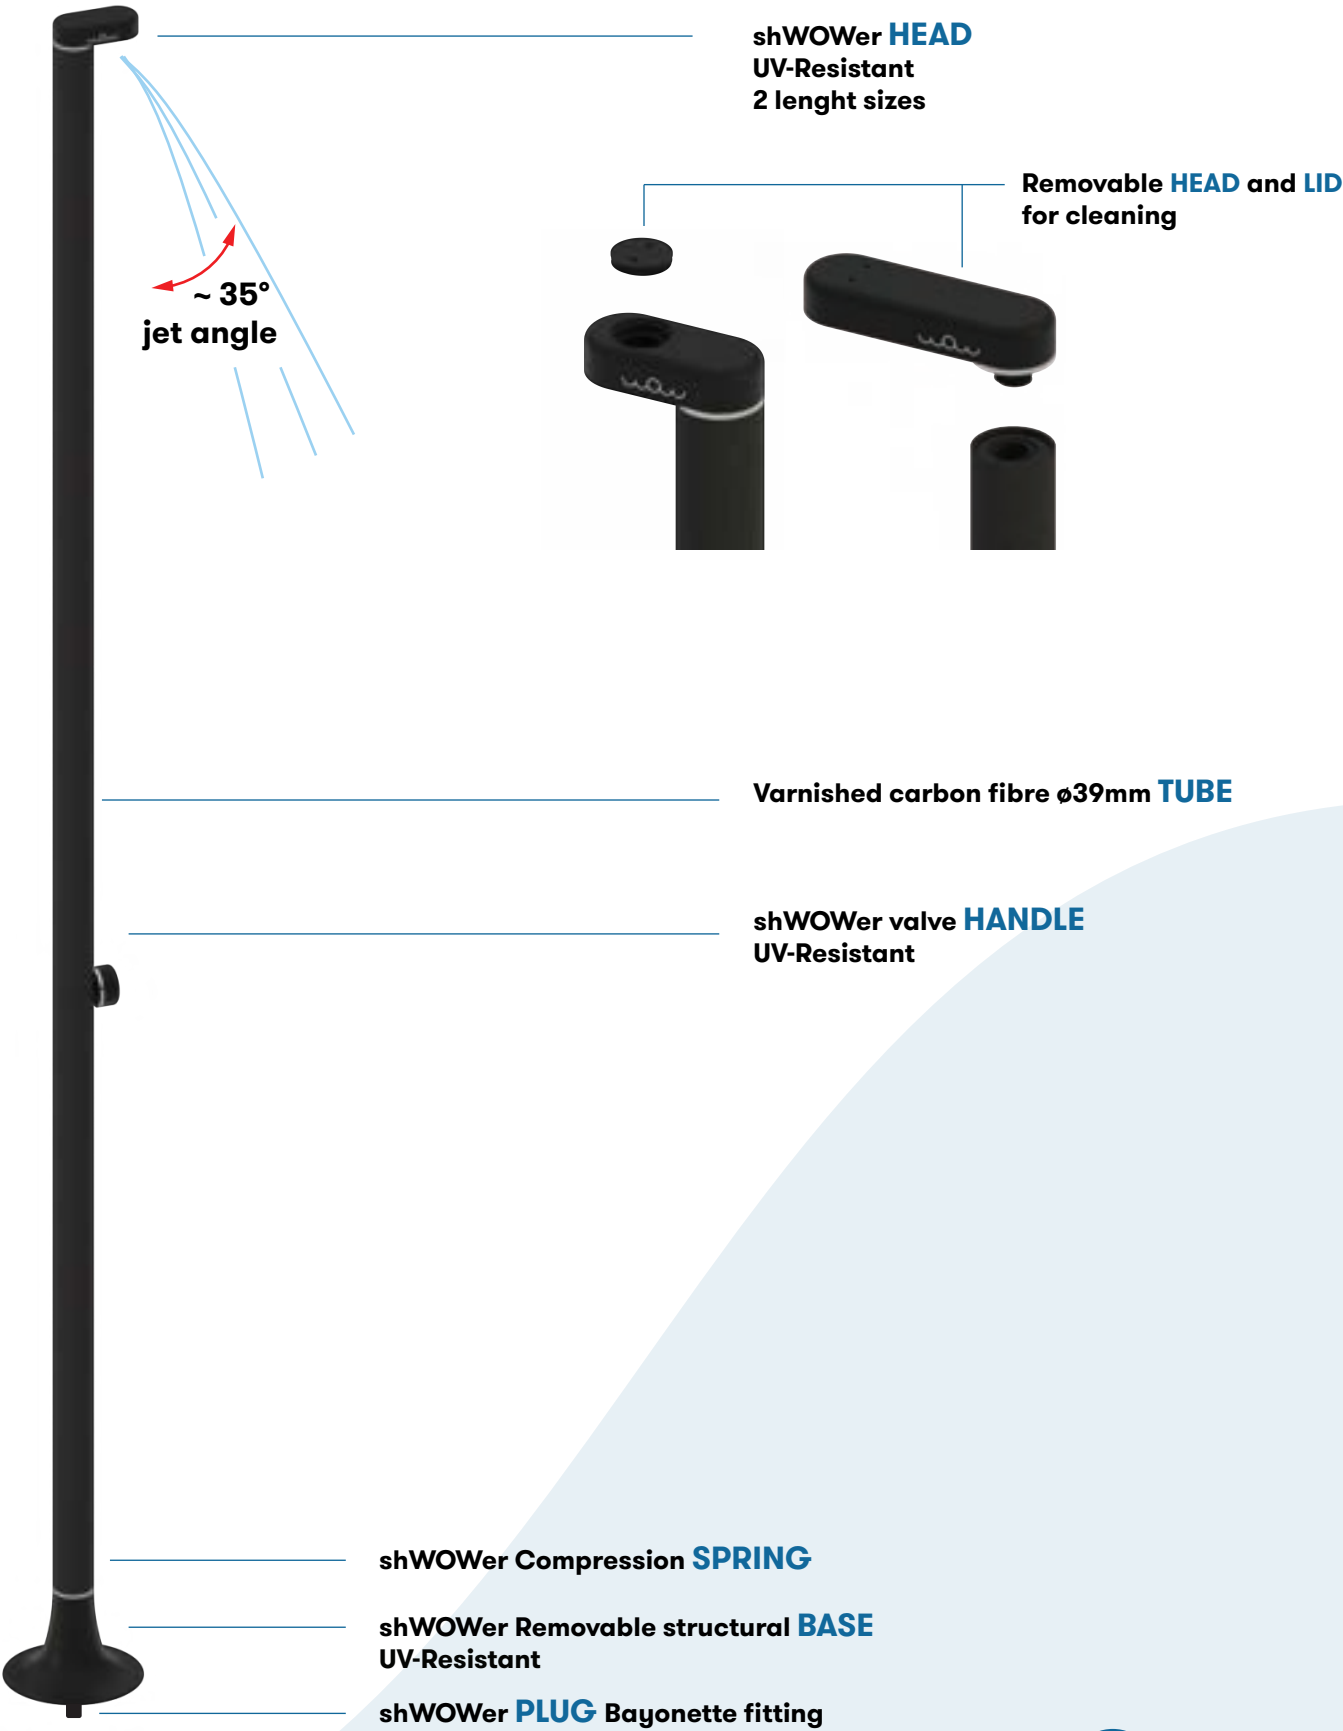

OPTION 3 - hide all the commands with automatic water mixing

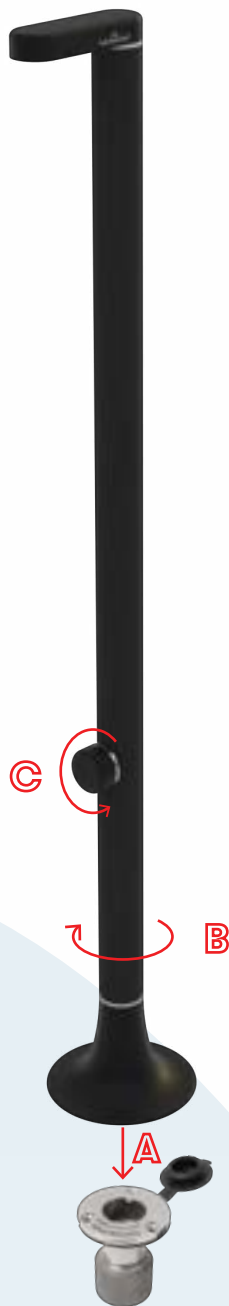

Choose your **HEAD SIZE**

shWOWer details

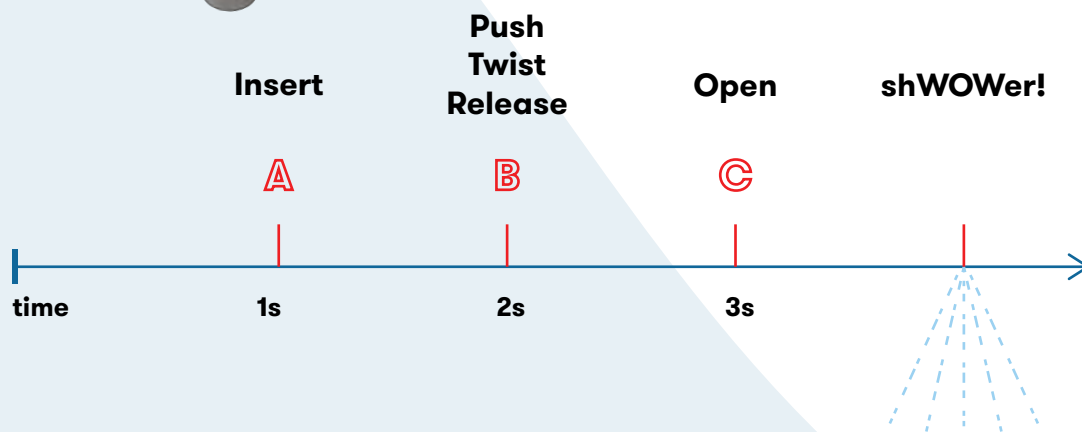

How to

Easy to install, just place the shWOWER on the washdown fitting, **PRESS DOWN** and **TWIST** to lock it, and **OPEN** the valve to enjoy. Adjust water temperature with the mixer of your choice.

Press, twist and remove once finished. Store it in its bag or clip it on the side of the tender garage.

When size matters

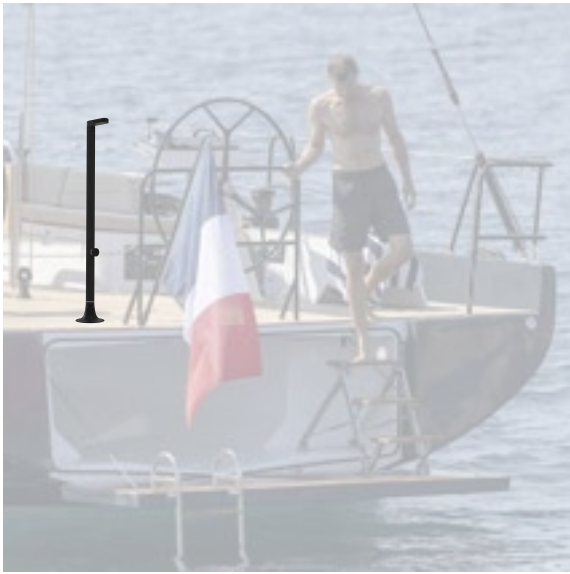

If you think the full size shWOWer is too long to stow, fear not, we can fit it with a special connection that will magically reduce its size into two super comfortable pieces that fit anywhere onboard.

Look for **THE SPLIT OPTION** on the price list to see which models apply for this option

All-round

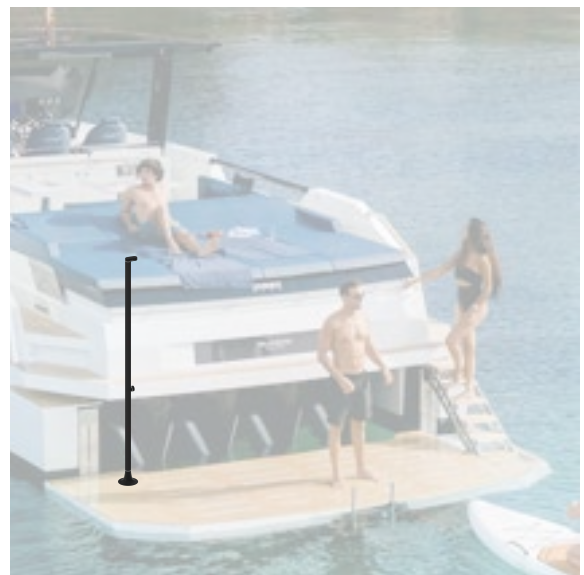

Luxury monohull

Charter

Catamaran

Daysailer

Performance rib

Classic yacht - refit

Accessories

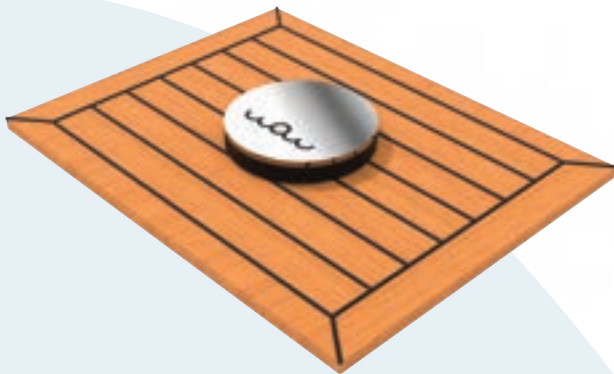

STOWING CLIPS

Stowing the shWOWer away when not in use can happen in two ways: either you slide it back into its soft bag, or you clip it inside a locker compartment. These clips have been carefully designed soft not to damage the varnish.

SOAP HOLDER

Stop worrying about where your solid soap goes during showers. Our Soap Holder keeps your bars and solid shampoos safely in place with an easy clip-on, clip-off design. No mess, no marks. It's the small solution that makes a real difference in your daily routine.

THERMOSTATIC MIXER

Our **OPTION 3** on the setup pages shows a **THERMOSTATIC MIXER** that automatically mixes the water, hidden underdeck, no extra holes on the boat. Temperature range goes from 30 to 60 degrees °C, and the thread is standard 1/2": cold in, hot in, mixed out.

DECK FITTING LID

Keep your deck looking pristine when the shWOWer is stowed away. The Deck Fitting Lid seamlessly attaches using the same bayonet system as your shWOWer, providing a sleek stainless steel finish that complements any outdoor space. Simple, elegant, and designed to maintain that polished aesthetic you love.

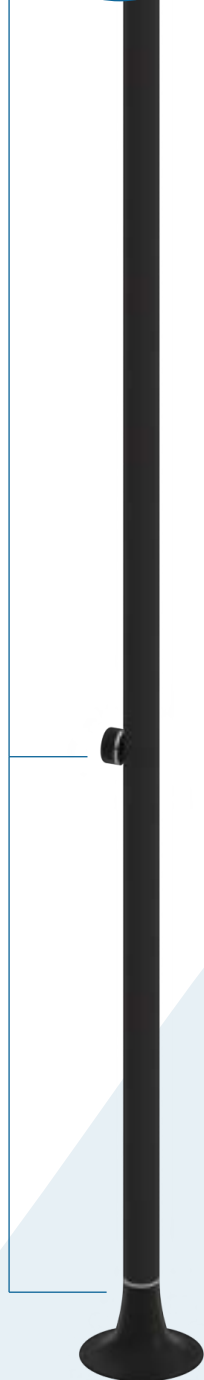

Customisation

Standard stainless steel **RINGS** can be substituted with custom colored Nylon ones*, matching your boat's tone. There three in total: on the **HEAD**, on the **HANDLE** and on the **BASE**

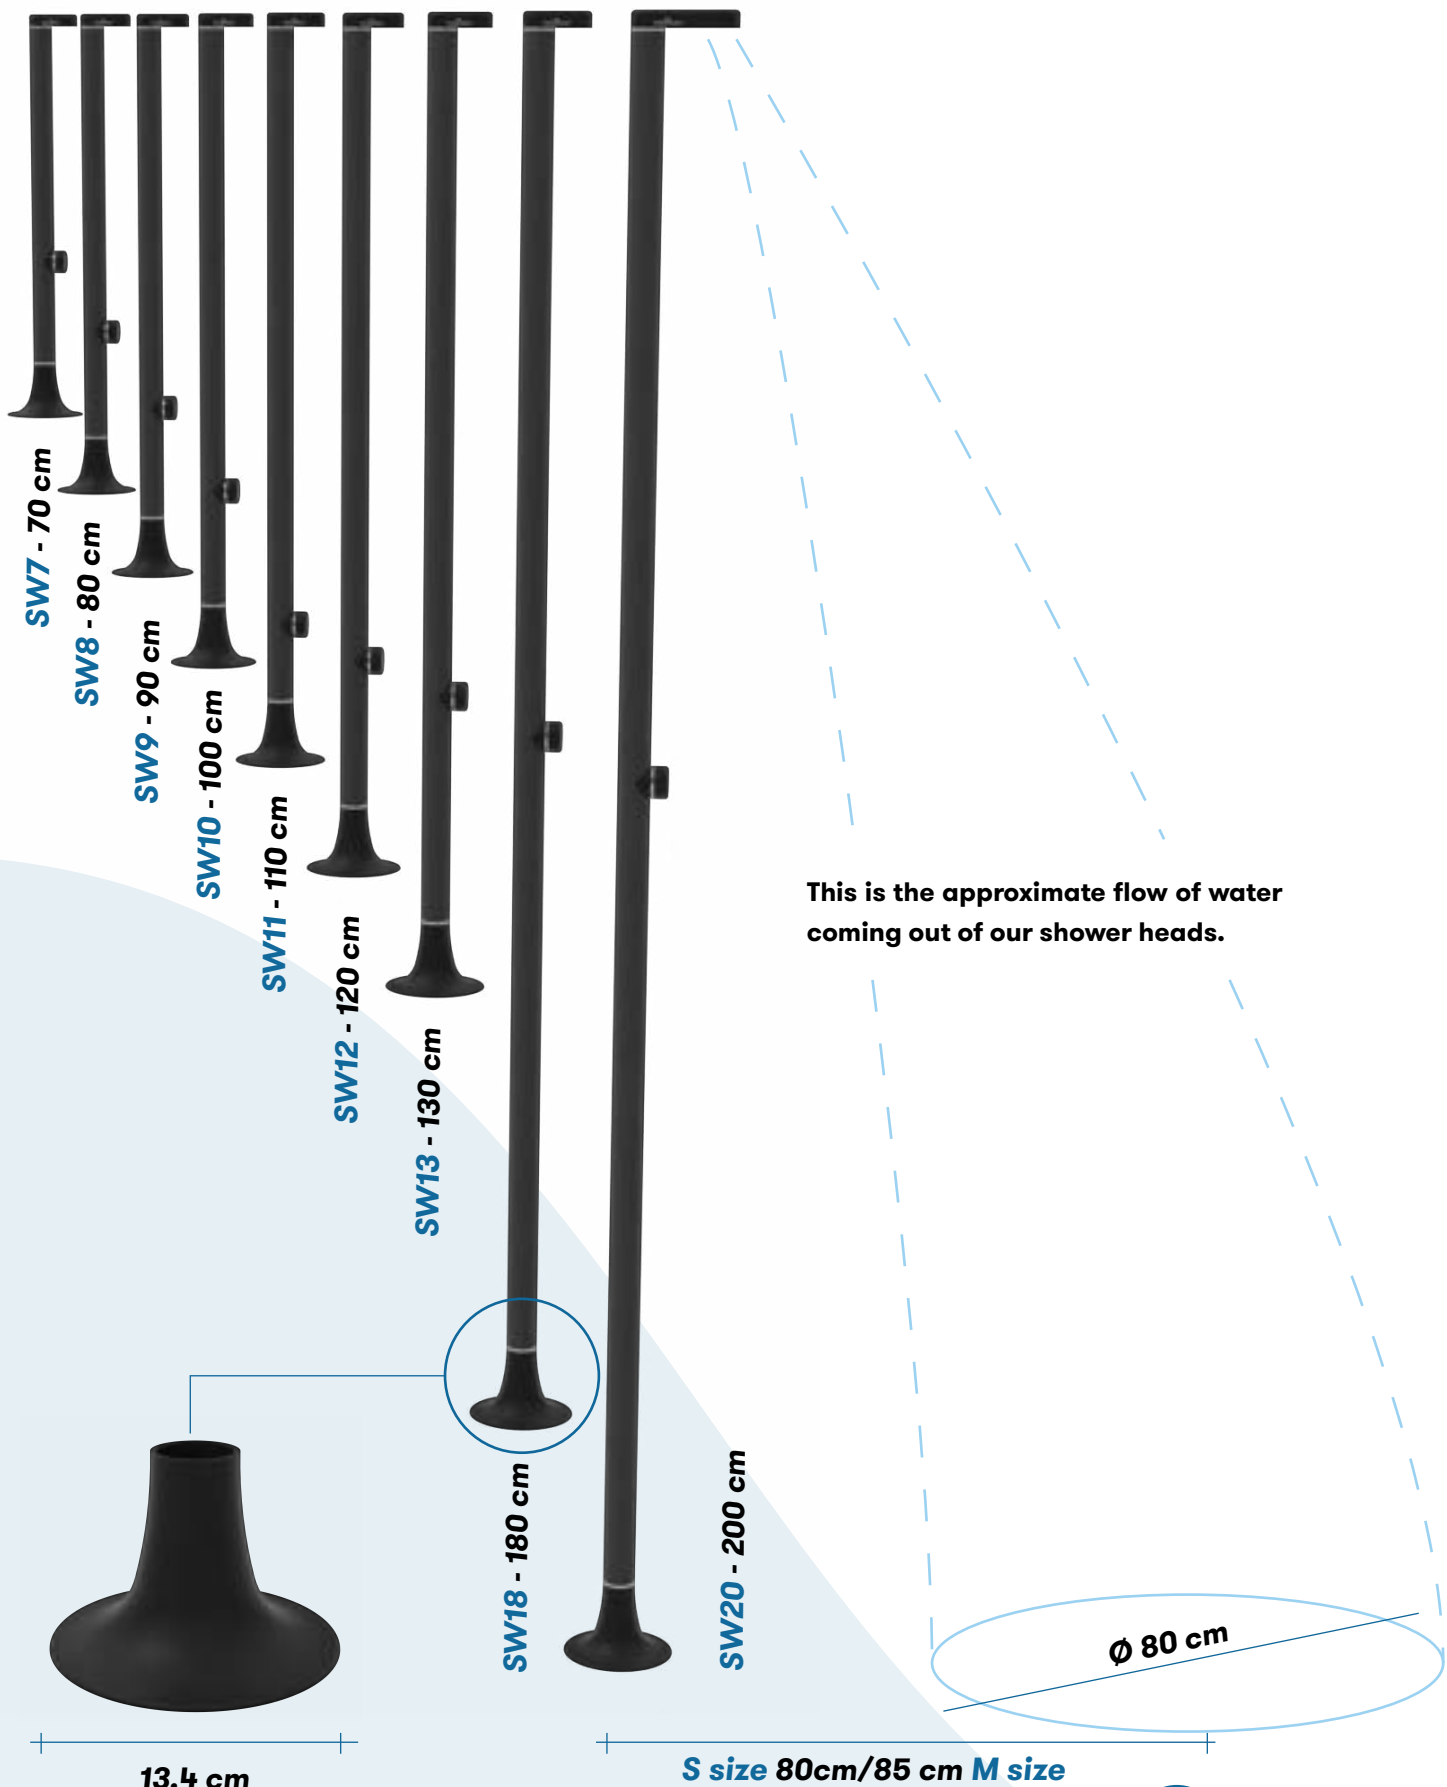

One side of the head bears the WOW stainless steel **LOGO**, while other is your canvas to customise with your boat's name or logo*.

*Size, color and material subject to availability

Know your size

Royal flush

“I can finally wash my hair using both hands”

Every woman on a boat

“Now my brand new 65 footer has a proper cool shower!”

Owner berthed at Porto Rotondo

“A smart shower I can store anywhere and I can even use the deck wash system? WOW!”

Boat captain

“At last after 25 years an evolution in deck shower design!”

Seller to a client

“It only adds a standard component with no compromise to overall layout”
