

ANP PHARMA

Complete Maritime Medical Solutions for New Builds

ANP Pharma equips new builds, including cruise ships and superyachts, commercial, work and ambulance boats, with the medical kit and the equipment required for a vessel to sail safely and legally from day one.

Single-source procurement

For safety medical equipment, consumables and pharmaceuticals, simplifying supplier management and reducing administrative workload.

Regulatory expertise

Across MCA MSN 1905, IMGS and flag state requirements, ensuring medical provisions are compliant and ready for handover.

Custom medical solutions

Built around the vessel's actual use rather than generic packages, such as dedicated kits for ambulance boats.

A reliable supply chain

With capital equipment readily available and short lead times to support urgent build schedules.

Lifecycle support

Through ongoing kit supply, replenishment, and support, delivering continued value from the initial build throughout the vessel's operational lifecycle.

Documentation support

Managing annual medical chest certifications alongside replenishment audit of expiry and inventory records.

WHO WE SUPPORT

We work directly with the teams responsible for delivering a compliant vessel on schedule:

+ Fleet managers
+ Project managers
+ Medical teams
+ Procurement teams
+ HSE managers
+ Crew managers

THE NEW BUILD REALITY

Kitting out a new build for medical compliance and emergency readiness comes with a unique set of requirements.

+ Budgeting for capital medical equipment and consumables.
+ Managing procurement across multiple countries.
+ Meeting short lead times and urgent requests.
+ Having the vessel ready in time for handover to the owner or management company.
+ Keeping on top of medical certification and documentation.
+ Finding a partner for long-term support beyond the initial supply.
