innovative development
extension of ARCORA® PU-PAD

WHY ARCORA® PU-PAD?

Light

The 100% environmentally friendly pad with waterdrop perforation system is the ideal pad for maintenance cleaning, **especially with smaller scrubber drier machines.**

The ARCORA® PU-PAD Light...

- enables a maintenance cleaning area performance of up to **100,000 m²**.
- is perfect for **smaller scrubber drier machines.**
- is especially **robust and durable** due to the composition of polyester, polyether bonded with polyurethane.
- is applicable on all types of water-resistant elastic and hard floor coverings, even on porcelain stoneware floors and safety floors up to R13.
- has a **higher water absorption** than conventional pads.
- is **100% environmentally friendly** due to the exclusive use of recycled products.

The ARCORA® PU-PAD Light...

- less pressure needed especially on **smaller-battery scrubber-drier machines** with lower Ah battery, e.g. 56 Ah, enabling longer running time.
- lengthens the running time of lithium batteries.
- reduces the pressure on motors and batteries enabling a higher m² performance.
- less pressure on small cable scrubber-drier motors.

What makes the ARCORA® PU-PAD Light special?

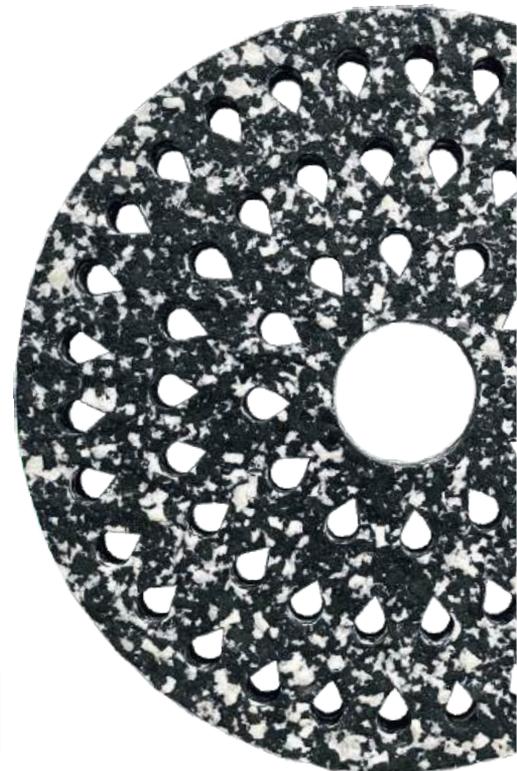

- Due to the applied water drop perforation, the reduction in friction compounds the plus/minus effect without damaging the floor → gentle but effective cleaning
- The perforation technique enables better water distribution and dirt absorption
- To protect the environment, the water drop system reduces the amount of water needed
- Due to the die-cutting technology of the PU PAD Light, the machine glides more easily over the floor

Waterdrop System

PLUS-MINUS effect

- Improved gliding over the floor
- Better dirt absorption
- Better water distribution & saving

ARCORA® PU-PAD *Light*

innovative development extension of ARCORA® PU-PAD

Application / Application areas

For maintenance cleaning of all floor coverings, e.g. tiles, stone floors, porcelain stoneware, concrete, vinyl, PVC and linoleum floors. **Perfectly suitable for use with smaller scrubber-drier machines.** The pad side is used for cleaning all resilient coverings and hard floors. For more stubborn dirt, the pad can be turned over and the pad back (green) can be used like a normal cleaning pad.

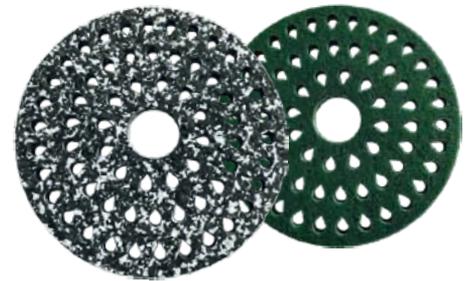

100% environmentally friendly

The ARCORA® PU-PAD Light is 100% environmentally friendly, due to the use of recycled products.

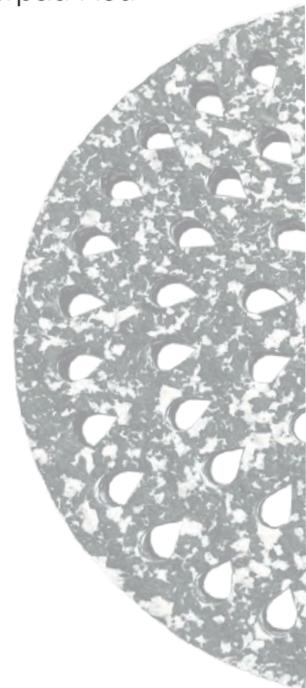

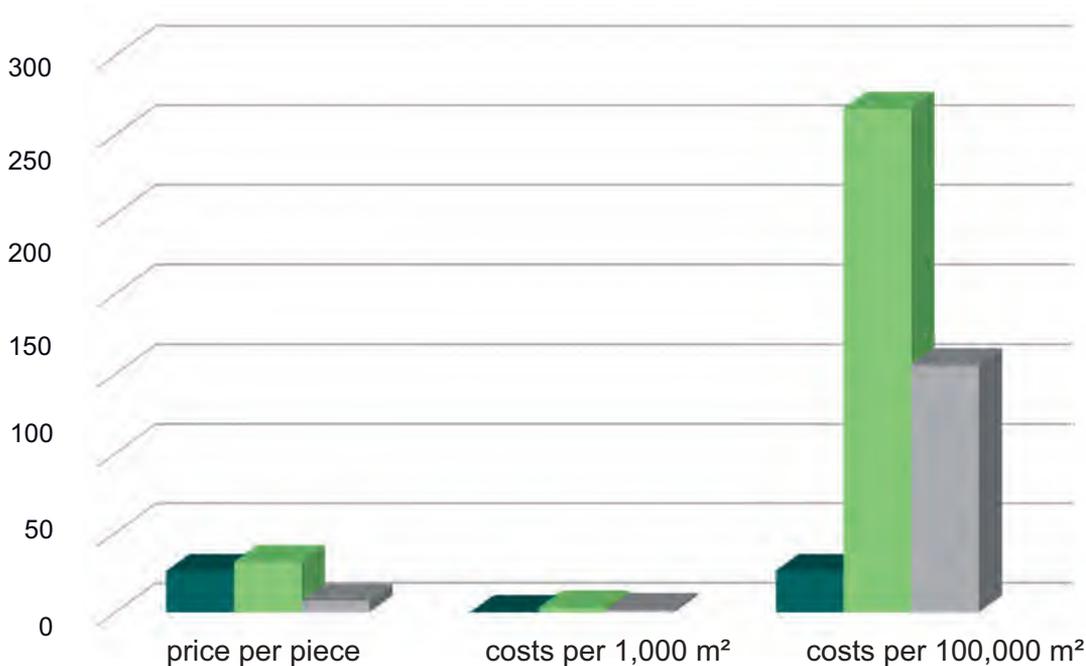

Facts and Figures

pad type	price per piece	area performance
17" PU-PAD Light	26.00 €	~ 100,000 m ²
17" Melamine-Pad	31.65 €	~ 10,000 m ²
17" Superpad Red	7.00 €	~ 4,500 m ²

pad type	costs per 1,000 m ²	number of pads needed	costs per 100,000 m ²
17" PU-PAD Light	0.260 €	1	26.00 €
17" Melamine-Pad	3.165 €	10	316.50 €
17" Superpad Red	1.556 €	~22	155.60 €
