Rapid Marine Unveils New Seabob Chocks: The Ultimate Storage Solution for Luxury Yachts

Rapid Marine has introduced the Seabob Chocks, a new accessory designed to securely store Seabobs on luxury yacht bathing platforms.

Rapid Marine is thrilled to introduce its latest innovation in luxury yacht accessories: Seabob Chocks. Designed for the most sought-after water toy in the marine leisure industry, these premium chocks provide a secure, durable, and removable storage solution ensuring Seabobs remain stable and protected on the bathing platform after guests have enjoyed their time in the water.

Crafted for Elegance & Protection

Handcrafted from Iroko wood, the Seabob Chocks are designed to seamlessly complement teak decks while preventing unwanted movement, deck marks, and clutter. They feature innovative soft protective pads, inspired by Rapid Marine's DAME award-nominated Universal Chocks, offering an extra layer of care to safeguard the Seabobs finish.

"We've had customers requesting a tailored storage solution for Seabobs for some time now," says Mike Evers, Managing Director of Rapid Marine. "After showcasing the product at METSTRade 2024 in Amsterdam, the response was overwhelmingly positive, and we're excited to bring it to market."

Engineered for Luxury & Practicality

Unlike fixed storage solutions, these freestanding chocks can be repositioned with ease, allowing guests and crew to move them wherever the Seabob is needed. This ensures a tidy, safe, and flexible platform without bulky mechanisms interfering with the guest experience.

Availability

The Seabob Chocks will be available for purchase directly from Rapid Marine online and through select European stockists from April 2025, just in time for the summer season.
