

NEW NZERO MARINE RANGE
ORGANIC LUBES, GREASES AND CLEANERS

2026-27 SHOWCASE

nzero[®] marine

NZERO: new Marine product range to protect our Seas and Oceans!

Our passion for outdoor sports has created our deep roots with the Sea and Oceans, or perhaps it is the other way around, being able to enjoy the Sea has made us love the sport we practice.

In any case, **protecting our environment** has become an extreme demand today. It is for this reason that at **NZERO** we have developed a new range of Marine products **organic and highly effective** that guarantee our respect for the environment.

With formulas based on vegetables, natural additives and avoiding ingredients of mineral origin, **NZERO** equips sailors and shipyards to meet the growing demand for environmentally responsible marine practices. What are the improvements of our formulas:

- **Total replacement of hazardous additives substances** with high aquatic toxicity. We are fully labelled toxic free and biodegradable, according to CLP European Regulation.
- Maximum **reduction of metal oxidation**.
- Excellent **anti-wear response**.
- Highest **salt-water protection** capacity.
- Best **coating compatibility**.

Marine Dry and Wet Lubes

Vegetable-based formulas for marine gearcases, reducing friction while enhancing performance and protection. Ideal for high-load outboard and stern drive systems, and equally suitable for sliding and rotating equipment such as pulleys, winches, anchor guides, and sail rails.

Marine Grease

A high-performance grease without PTFE specially developed for winches and capstans of all types. Provides optimum wear protection and friction reduction. Resistant to fresh and salt water; excellent adhesion. Resin and acid free. Suitable for winches and capstans with non-ferrous metal or plastic-metal combinations. Highly adhesive and neutral to harmful environmental effects.

Marine Degreaser

Specially formulated to thoroughly clean ship engines and bilges, effortlessly removing grease, hydrocarbons, carbon deposits, waste oils, and smoke residues. Also effective on hulls, buoys, and chrome fittings –leaving every surface spotless and sparkling.
