

Electric exhaust duct cleaning equipment

It performs the cleaning of the grease accumulated in exhaust ducts. It sprays active foam and brushes the duct. After a few minutes you can rinse for a perfect finish.

- It incorporates the Proaxis system, which minimizes shaft breakage during cleaning.
- Connected to the ifoam range of equipment, it allows you to inject the active foam which adheres to the entire surface of the duct.
- The remote control allows the equipment to be used by a single operator.
