

LET LIFE FREE AND CLEAN

Company profile

Ningbo Chunchen Environmental Protection Technology Co., Ltd. is a newly established enterprise dedicated to environmental protection technology. It focuses on the research, development and sales of water purifiers and air purifiers, aiming to widely apply ozone technology to household market.

Chunchen's products include household water purifiers, air purifier and ozone generators. The company's operation goal is to provide services to customers in specific subdivided fields to ensure the market competitiveness of products.

Chunchen has a complete R&D system, a professional R&D team and R&D equipment to help customers develop products and put launch the new products into the market as quickly as possible according to market changes and customer needs.

Chunchen has its own production plant which passed by ISO9001 certification to ensure product quality and delivery date. The products have been exported to overseas market with CE, Rohs and etc.

Chunchen adheres to the principle of "people-oriented", attaching importance to talent training, and encourages employees to increase their value, and actively builds a young and professional management team.

Company advantage

Patent technology

Technical cooperation with university and own independent patented technology

Complete R&D process and R&D team

Positioning market segments, developing products according to customer needs, and put into mass production at the fastest speed

Own plant guarantees product quality and delivery date

Own 1800 square meters workshop, including the whole process of injection molding, spraying, assembly and inspection

Product Advantage Competition

The company is responsible for R&D and factory production to ensure product price competitiveness

Professional after-sales team

Engaged in selling ozone products over 10 years

FREECLEAN

FREECLEAN LAUNDRY PURIFIER

• FCW-02

• FCW-03

• FCW-04

Freeclean laundry purifier is designed to work with your washing machine, adding ozone to the cold-water supply, which aids in cleaning laundry and killing bacteria without leaving residual detergent in the fabric.

Freeclean laundry purifier is unique function to the clothes of white-collar, grvida, infants, and underwear washing.

Advantages

Clean clothes with less or no detergents

kill 99.6% normal bacterias

Increased fabric life and volume

Eliminate allergies caused by detergents & harmful detergents

Energy saving & emission reduction

Quick & Easy Installation

Technical Specification

FREECLEAN

FREECLEAN SMART PURIFIER

• FCW-03S

The Freeclean smart purifier is connected to a faucet, providing ozone water for cleaning vegetables and fruits in the kitchen, as well as the bathroom sink and shower.

• FCW-04S

Freeclean smart purifier can be used for pet bathing and other areas that require sterilization and disinfection.

Advantages

Remove odors, kill bacterias in short time

Eliminate allergies caused by detergents & harmful detergents

Energy saving & emission reduction

Remove pesticide residues on the surface of vegetables, melons, and fruits

Smart size & Easy installation
