Professional Manufacturer of
Purifying & Sterilizing Faucets

INGENUITY FORGES QUALITY. UVDF PROTECTS CLEAN WATER SAFETY WORLDWIDE.

No.8, East Fengyu Road, Lupu Town, Yuhuan City, Taizhou City,
Zhejiang Province, China

Founded in 1999, our production base is a professional enterprise engaged in the R&D, production and sales of various antibacterial faucets, sterilizers, water purification faucets, pressure-free faucets, lead-free faucets and other water purifier accessories.

The factory covers an area of 10,656 square meters, with a workshop area of over 14,000 square meters and more than 300 employees. We implement strict quality and efficiency management and have obtained ISO9001 quality management system certification.

Sixty percent of our products are exported to Taiwan, South Korea, the Middle East, the United States and other regions around the world. We are the preferred supplier of components for many well-known domestic and international brands in China, including Paragon, Everpure, Pentair, EcoWater, 3M, Midea, Gree and A.O. Smith. Our excellent quality and comprehensive service have won high praise from customers at home and abroad.

With our consistent professionalism and forward-looking vision for the industry, our sterilizers were the first to obtain the American NSF certification. We are also a member of the Water Quality Association (WQA).

With first-class quality and management, Unidafeng will continue to provide advanced and high-quality products for the global water treatment industry. We are committed to improving the living environment and quality of life for mankind in the 21st century.

UV2219

Germicidal module

MODEL	UV2219
CORE PATENTS	Asahi Kasei LED (apan, Patent) ; UVDF Exclusive Structural Patent
EFFECTIVE STERILIZATION FLOW	4.5 T/H
DIMENSIONS	33*31*11cm
NET WEIGHT	8.2kg
INLET WATER TEMPERATURE	4°C - 38°C
INPUT	110-220V-50/60Hz
POWER	72W
STERILIZATION LAMP SPECIFICATIONS	265 nm, 80mW*9*2
STERILIZATION RATE	99.99% (G20, standard test based on E. coli)
APPLICABLE WATER QUALITY	Clear drinking water with turbidity < 1 NTU
STERILIZED WATER VOLUME&LIFESPAN	Up to 10 years, maintaining 70%sterilization efficiency after 10 years, cumula- tively treating up to 90,000 tons of water.
ENERGY-SAVING&ECO-FRIENDLY	Automatically adjusts to water flow; if flow isbelow G10, one module shuts down to save energy.

4.5T/H
