

L04 Multifunction Joystick

lilaas[®]

L04 is a modern and compact multifunctional joystick

Compact, rugged and combining multifunction control - simply and safely

- 1, 2 or 3 axes
- Handle movement 48° in x- and y- direction and 120° in z- direction. (90° with spring return)
- Designed for electronic control.
- Touch-free magnetic sensors reduce the amount of space required under the mounting plate, and make movement extremely smooth and accurate.
- Redundant sensor included.
- Adjustable brakes and zero point.
- Simultaneous operation of all axes.
- For maritime as well as shore based purposes.
- Delivered with ball-shaped transition between handle and panel plate.

Options

- Logo
- Push button with or without light
- Different shafts
- Spring-loaded return to neutral
- Colours
- Built-in switches
- Light
- Other options on request
