DECKING

EVOLUTION OF DECKING

Why use EVO-DECKING?

The EVO Decking mission was to create the most authentic looking decking solution available and indistinguishable from teak.

EVO Decking have chosen the best pvc formula that provides longevity year after year. We boast the most comprehensive and realistic colour range on the market. Alongside an unrivalled training programme and ongoing support, you can be confident that EVO-Decking is the right choice for you.

Our product is low maintenance and high quality. As you would expect it has excellent non-slip qualities, even when wet, and is UV stabilised.

A close-up photograph of the EVO Decking product, showing the light-colored, wood-grain texture of the synthetic teak planks. The planks are arranged in a staggered pattern, and the background is a solid blue color.

market leading synthetic teak • ongoing support

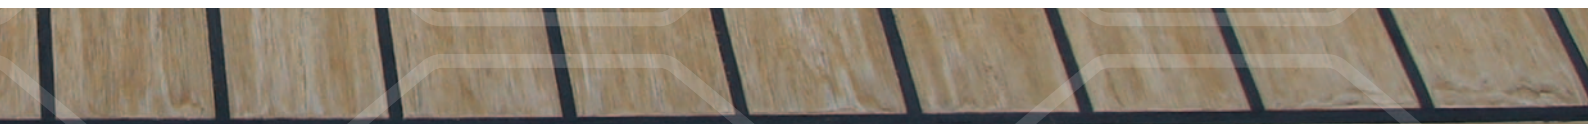

We are looking for more Distributors worldwide

Whether you are looking for something new or are an established business seeking to expand, you might find that EVO Decking provides the ideal solution.

Good quality teak is almost a thing of the past, as many countries are now restricting the importing of natural teak. EVO Decking synthetic decking is almost indistinguishable from its teak counterpart but offers numerous advantages in terms of **look, maintenance and longevity**. As a result, more and more boat builders and boat owners are choosing synthetic teak decking over the original teak.

We are passionate about our product and are looking for like minded people to take advantage of this fantastic product range and the opportunities it can provide to yourself and your customers. For more information contact us through our website to arrange a meeting.

- indistinguishable from teak
- unrivalled training programme
