

Better Efficiency with Intelligent Robots

SW80 A

3-in-1 Mopping, Sweeping, and Vacuuming

The SW80 A is an all-in-one waterless cleaning robot designed for commercial and industrial use. With features such as mopping, sweeping, and vacuuming, this robot is suitable for carpets, hard floors, and wooden surfaces, offering powerful dust control. It is ideal for medium to large environments, including warehouses, shopping malls, factories, exhibition halls, and other public spaces.

Waterless cleaning technology

Rapid deployment
and easy maintenance

Continuous AI operation,
available 24/7

Intelligent mapping
with precise positioning

Real-time task monitoring
with automated cleaning reports

Multi-Scenario Application

Shopping malls/Supermarkets

Railway stations/Metros/Airports

Factories

Exhibition centres/Conference centres

Hospitals/Medical centres

Hotels

Office buildings

Schools

Suitable for a Wide Range of Floors

Premium Floors

Short-pile Carpet

Long-pile Carpet

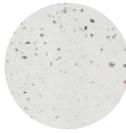

Wooden Floor

Marble

Common Floors

Terrazzo

Cement Floor

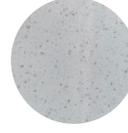

Ceramic Tiles

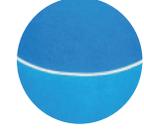

Epoxy Resin

Sandstone

PVC

Plastic Flooring

Product Technical Specifications

Dimensions (L*W*H)	1025*850*975(mm)	Battery capacity	100Ah
Weight	190kg	Speed settings (High/Medium/Low)	0.6m/s 0.45m/s 0.3m/s
Charging station dimensions (L*W*H)	455*350*450(mm)	Operating noise volume	≤62dB(A)
Trash bin capacity	3.5L	Operating time	8-12 hours
Highest cleaning efficiency	1600 m ² /h	Cleaning path (w/ double side brush)	850mm
