STP - PARTS
Cores for a better life

Where we are:

ZIP-City: 40721-Hilden/Germany ; Street: Otto-Hahn-Str.7
Distance: Airport Duesseldorf (DUS) : 29km ; Highway A46/A3 : 5km

Brief history

- Our history begins in **2001**, with the foundation of STP-Recycling in Thessaloniki, Greece, by Athanasios Pelekanos.
- The aim was to create a successful catalytic converters recycling company, the first in Greece at that time.
- In **2003** the company signs contracts with Europe's largest refinery for precious metals, Degussa AG(DMC2), as an exclusive partner for the region of Greece.
- In 2003 after a visit at ReMaTec the idea of the core supplying was born. Seeing this as a new opportunity the company in **2005** starts also to operate as an organised core supplier, the first in Greece.
- In **2010**, the company expands in Central Europe and STP-Parts GmbH is established in Düsseldorf.
- In one of the strongest economic regions in the world, the Rhine-Ruhr area, STP is handling today the purchasing as well as sales of cores to a customer base all over the world.

What makes us unique and different

- Delivery of high quality cores for our customers
- Specialisation in the buying and selling of a wide range of PC and CV core units
- Strong emphasis on core identification and quality control
- Wide collection network with access in any kind of PC or CV cores
- Strong emphasis in Technical Product Training in order to get product knowledge and skills. Such trainings in Technology, Failure Modes and others

Where we are organized

Lars Hardt

Director of APRA Europe

Plant Manager

AMBASSADORS

Georgios Chalazimikolaou

Chairman
STP - Parts GmbH
Chairman of APRA Europe

Head of Ambassadors, Ambassador for Greece

Georgios Chalazimikolaou is responsible for more than 20 years of experience in the automotive industry, working in various roles. He is a graduate engineer, holding a bachelor's and a master's degree from Aristotle University of Thessaloniki, and a master's degree in business management from the University of Thessaloniki. Since 2003 he is a core and ambassador for the industry.

Georgios is a Board Director of APRA Europe and he is the Head of the APRA Europe Ambassador programme. He is also responsible for the Ambassador program for Greece.

He believes he is engaged in APRA Europe because "Remanufacturing for the 21st century is a great business. What is not can be done again with many different components, local and national brands. APRA is the only global association for the reman industry, playing a major role in ongoing efforts for circular economy. It is the main reason I support it right now and I will continue to do this in the future."

We are proud to have Georgios for his dedication and engagement for APRA Europe.
