

MyCheckr

Biometrics by Innovative Technology®

MyCheckr performs anonymous age estimation, to assist with the sale of age restricted goods.

It is a simple, low-cost solution that helps the server make informed decisions during the age check process.

- All-in-one device, no integration required
- Local processing with instant results
- No data stored, GDPR certified by Age Check Certification Scheme (ACCS)

 MyCheckr^{Mini}
Biometrics by Innovative Technology®

Compact all-in-one device without screen

No internet required

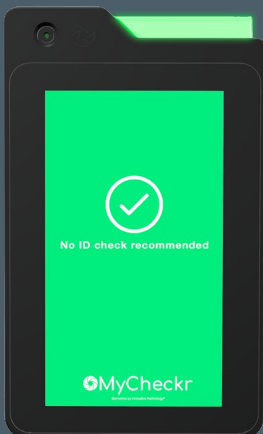

No recurring fees

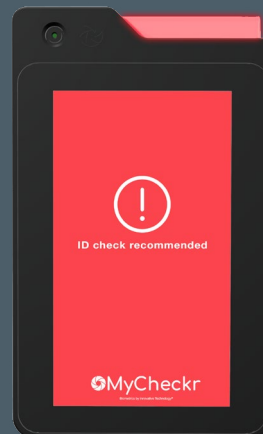

World leading accuracy

How it works...

Device clearly shows the server if a manual ID check is recommended

The person in front of the camera is 25 or over

The person in front of the camera is under 25

Conforms to **CHALLENGE 25**

Did you know...

The Association of Convenience Stores Crime Report 2022 found 'enforcing an age restricted sales policy' is one of the top triggers for violence against staff

Prevent underage sales

A deterrent to stop underage customers attempting to purchase age registered goods

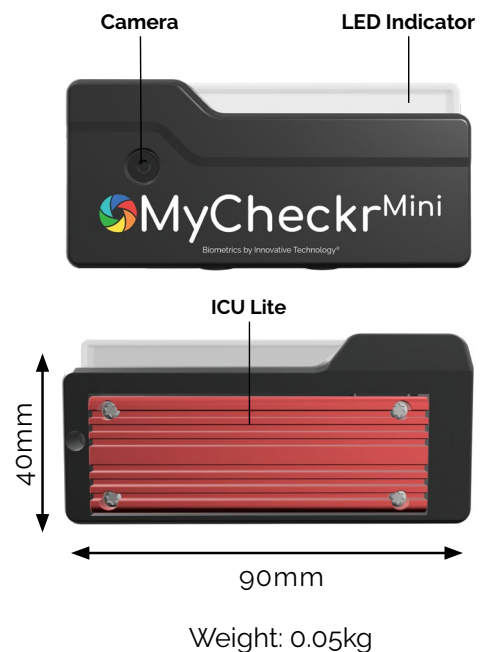

Reduce potential abuse

Helps reduce potential abuse when challenging customers for ID
