NEW!

With sustainability at the forefront, Tecma is proud to introduce the new EKO-LIGHT toilet concept. The EKO-LIGHT entirely made by bio-based materials combines design and sustainability maintaining all carbon fiber features of ultra-lightweightness, versatility and resistance.

Whether it is the weight reduction for high-performance racing, or because of the match in looks and lifestyle, with the Tecma EKO-LIGHT you are assured of a special high-quality marine toilet, made by cutting-edge materials and technologies and designed to combine style and engineering, and for a sustainable future.

Features:

- Made of natural fibers
- Italian clean design
- Very high performance at low weight
- Minimal impact on the environment
- 2G improved System
- Soft closing seat and cover with frontal quick release system
