

COOLENATOR

**Make every sip your guests take a
reminder of the quality and care you offer**

COOLENATOR IS NOT JUST A REGULAR WINE COOLER

Coolenator wine coolers actually make your bottle colder rather than using the cold from the bottle itself. Coolenator has a removable freezer bullet that adds a powerful freeze to the cooler.

DESIGNED WITH HOSPITALITY IN MIND

- ✓ **ELEVATED GUEST EXPERIENCE**
with drinks served at the ideal temperature throughout their stay.
- ✓ **INCREASED OPERATIONAL EFFICIENCY**
by minimizing the need for frequent beverage checks.
- ✓ **SUBSTANTIAL COST SAVINGS**
through reduced ice usage and enhanced table space utilization.

EVERY SIP YOUR GUESTS TAKE IS A REMINDER OF THE QUALITY AND CARE YOU OFFER

COOLENATOR

- ✓ Removable freezer bullet
- ✓ Ice-free solution
- ✓ No condensation

THE ROOM SERVICE SOLUTION

COOLS 6+ HOURS

EFFORTLESS ROOM PREP FOR COMPLIMENTARY BOTTLES

NO ICE CUBES

NO CONDENSATION

BRANDED & CUSTOMIZABLE

BOOSTING REPEAT BUSINESS AND SAVING COSTS

DRIVE REPEAT BUSINESS

Satisfy your customers' thirst for quality and consistency, enhancing customer satisfaction and loyalty. Encourage repeat visits and cultivate long-term relationships, leading to sustained sales growth.

COST-EFFECTIVE SOLUTION

Coolenator's freezer bullets costs a few cents to charge in your freezer, offering a highly cost-efficient solution for maintaining chilled beverages opposed to ice cubes

FOSTER FASTER CONSUMPTION

Cold drinks are consumed more quickly. By offering consistently chilled beverages, you create an environment where customers are encouraged to indulge and order more.

ENHANCING EFFICIENCY

Streamline your operations and serve more customers in less time. Say goodbye to constant bottle checks and refills, allowing your staff to focus on delivering exceptional service.

KEEPING IT COOL

Green

GO GREENER

By incorporating Coolenator into your establishment, you can contribute to environmental sustainability in two key ways:

REDUCE WATER WASTE

Unlike traditional ice machines that continuously require water replenishment and generate excess water waste as ice melts, Coolenator operates without water, helping reduce water waste.

ENERGY EFFICIENT

Reduce energy consumption by using less ice. Lowering your carbon footprint and decrease energy costs, promoting long-term sustainability and cost savings.

SOME COOL FACTS & FEATURES

- ✓ **NO CONDENSATION**
No condensation. Keep tables and hands dry for a more comfortable and clean experience.
- ✓ **SPACE SAVING**
Coolenators compact design minimizes table space, allowing for more efficient use of the table.
- ✓ **LIGHTWEIGHT**
Weighing less than 1kg Coolenator is significantly lighter than traditional ice buckets, making it easier to handle and carry.
- ✓ **PROTECT BOTTLE LABELS**
Keep bottles looking pristine with Coolenator, as there's no risk of labels peeling off.
