Nina

BAKERY

NINA'S STORY

In 1936, young blacksmith Nasri Nehmeh started a bakery in Haifa, which after a first failure turned out to be successful. Nasri became a very skilled baker with outstanding craftsmanship and a passion beyond belief. With skill, heart, and a blacksmith's ingenuity, he invented an oven that transformed his craft and fully automated his production line.

Today, Nina's Pita, named after his daughter, is led with the same passion by his family. After more than 90 years, Nina's Pita is sold in 25 countries all over the world with an impressive yearly growth.
