YOUR LIGHT AND PORTABLE ENGINE

TEMO, getting you closer to the open sea!

LIGHT AND PORTABLE

Weighting less than 5kg and with a unique design, TEMO is practical and ultra-compact.

ERGONOMIC

Its telescopic size (from 130 to 170 cm) and its ambidextrous and multi handle ensure your well-being and control in all circumstances.

POWERFUL

With its 450W motor, TEMO allows you to propel a 3m long dinghy with 3 people on board.

MULTI-SUPPORT

Thanks to its rowlock socket, TEMO allows you to navigate any boat (tenders, fishing boats, sailing dinghies, etc.)

AUTONOMOUS

Practical and electric! Plug it directly into a 220V or 12V socket and then enjoy 80 minutes of autonomy at cruising speed.

MADE IN FRANCE

TEMO is made in France, between Brittany and the Pays de la Loire region.
