

# MODULAR WASTE SEPARATION UNIT 60 LITERS

Very solid modular waste bin made of powder-coated steel with bag holding brackets and adjustable legs. Includes connection material that allows multiple units to be linked together to create a waste separation station for multiple waste streams. Functional and robust. Favorable price-quality ratio. The waste bin is delivered without top. The top can be ordered separately and is available in different colors to distinguish the various waste streams. An inner liner is also optionally available.

For more information or personal contact, you can email to [verkoop@vepabins.nl](mailto:verkoop@vepabins.nl).

white	VB 206858	3120 6858

### Top with flap lid for modular waste separation unit

Solid top with powder coated steel flap lid to close off the modular waste separation unit. This keeps the waste out of sight and prevents unpleasant odors outside the unit. The cover with flap is equipped with a damping system that makes the valve close silently. The top falls nicely into the unit, creating a sleek waste separation station.
