04	Wall Mounted Drinking Fountain with Bottle Filler
22	Vertical Commercial POU Water Fountain
34	Desktop water dispenser
40	Undersink water chiller
46	Water Purifier

Water, known as the source of life, directly impacts human health and well-being. By recognition of this truth, Nowtech company not only focuses on the manufacturing of drinking water equipment, but is also committed to providing healthy, safe, and convenient drinking water solutions for households worldwide. From the R&D of intelligent purification technologies to the application of energy-saving and eco-friendly materials, Nowtech presents its pursuit of a high-quality life and a deep understanding of customers' needs in every detail.

As the founder of Nowtech, I firmly believe that every great dream begins with a courageous decision. With boundless longing for the future, Nowtech, adhering to its core philosophy of "Technological Innovation, Quality First", embarked on the journey of entrepreneurship full of challenges and opportunities. Nowtech constantly maintains customer-oriented principles, committed to providing high-grade-quality products and services to its global partners.

Looking ahead, we firmly believe that the power of technology will not only promote the development of the industry, but also will create greater value for society. With open-mind and resolute determination, Nowtech will work hand-in-hand with partners worldwide to embrace transformations and face challenges, to co-create a healthier and more prosperous future.

Zhejiang Nowtech Electrical Appliances Co. Ltd. located in Hangzhou China, was found in by Mr. Wang Heping, a veteran who has nearly 30 years working experiences and professional knowhow in water cooling and water drinking industry.

Through 30 years of development, Nowtech has grown as a leading brand from China in R&D, manufacture and marketing of high-grade water-drinking equipment. Our product range mainly includes Public Drinking Fountain, Commercial POU Water Cooler, Desktop and Vertical Water Dispenser, Under-sink Water Chiller, and Household Water Purification System etc.

Nowtech is committed to provide superior-quality products, comprehensive service, and win-win cooperation to our global clients. Till now our overseas sales network cover more than 50 countries and regions, like USA, Britain, France, Germany, Italy, Spain, Israel, Australia, South Africa, Mexico, Saudi Arabia etc.

In the future, Nowtech will adhere to customer-oriented principle, keep track of market trends and the development direction of the industry, and provide the industry-leading products to our partners in the world.

Let's forwarding together.

Wall Mounted Drinking Fountain with Bottle Filler

- Intelligent Control, Automatic Fault Alarm, Auto Shut-off for 20-second Bottle Filling, Visible Filter Monitoring with Replacement Reminders
- Fully Sealed Compressor cooling, Superior Thermal Insulation Performance, Cup Counter System, Maximize Reduction of reliance on Disposable Cup, Energy-Saving & Eco-Friendly Design
- Safe and hygienic, Touch-free sensor-activated water flow prevents cross-contamination. Equipped with a built-in high-precision filter and LED-UV sterilization, provide healthy and clean drinking water
- User-centric design, features tool-free filter replacement and an ADA-compliant integrated vandal-resistant cooling station/water bottle filler combo with space-efficient footprint
- Premium user experience, 1.1-gallon flow rate with laminar flow technology ensures clean filling and minimal splashback. True drainage system prevents water pooling in sinks
- The whole machine is integrally formed with SUS304 stainless steel, featuring a robust structure and long-lasting durability

Wall Mounted Cold
Drinking Fountain With Bottle Filler

NT-30A (IR Sensor)

- Wall Mounted cold drinking fountain with Bottle Filler
- Rated Cooling Power: 200W
- Cold tank: 3.5L
- Capacity For Cold Water: 20L/h
- Temperature For Cold: 8-12°C
- Filter System: PP+CTO composite
- UV-LED Sterilization function
- Product Size: 45x47.5x98.5cm
- Packing Measure: 67x52.5x65cm
- 40GP QTY: 292

NT-30AMM (Mechanical)

- Wall Mounted cold drinking fountain with Bottle Filler
- Rated Cooling Power: 200W
- Cold tank: 3.5L
- Capacity For Cold Water: 20L/h
- Temperature For Cold: 8-12°C
- Filter System: PP+CTO composite
- Without UV system
- Product Size: 45x47.5x98.5cm
- Packing Measure: 67x52.5x65cm
- 40GP QTY: 292

NT-30B (IR Sensor)

- Wall Mounted water cooler with Bottle Filler
- Rated Cooling Power: 200W
- Cold tank: 3.5L
- Capacity For Cold Water: 20L/h
- Temperature For Cold: 8-12°C
- Filter System: PP+CTO composite
- UV-LED Sterilization function
- Product Size: 45x28.5x98.5cm
- Packing Measure: 48x52.5x66cm
- 40GP QTY: 384

NT-30BM (Mechanical)

- Wall Mounted water cooler with Bottle Filler
- Rated Cooling Power: 200W
- Cold tank: 3.5L
- Capacity For Cold Water: 20L/h
- Temperature For Cold: 8-12°C
- Filter System: PP+CTO composite
- Without UV system
- Product Size: 45x28.5x98.5cm
- Packing Measure: 48x52.5x66cm
- 40GP QTY: 384

Wall Mounted
Drinking Fountain with Bottle Filler

Wall Mounted
Drinking Fountain with Bottle Filler

NT-30 (IR Sensor)

- Wall Mounted cold drinking fountain
- Rated Cooling Power: 200W
- Cold tank: 3.5L
- Capacity For Cold Water: 20L/h
- Temperature For Cold: 8-12°C
- Filter System: PP+CTO composite
- UV-LED Sterilization function
- Product Size: 45x47.5x58cm
- Packing Measure: 56x52.5x65cm
- 40GP QTY: 352

Wall Mounted
Drinking Fountain with Bottle Filler

NT-30M (Mechanical)

- Wall Mounted cold drinking fountain
- Rated Cooling Power: 200W
- Cold tank: 3.5L
- Capacity For Cold Water: 20L/h
- Temperature For Cold: 8-12°C
- Filter System: PP+CTO composite
- Without UV system
- Product Size: 45x47.5x58cm
- Packing Measure: 56x52.5x65cm
- 40GP QTY: 352

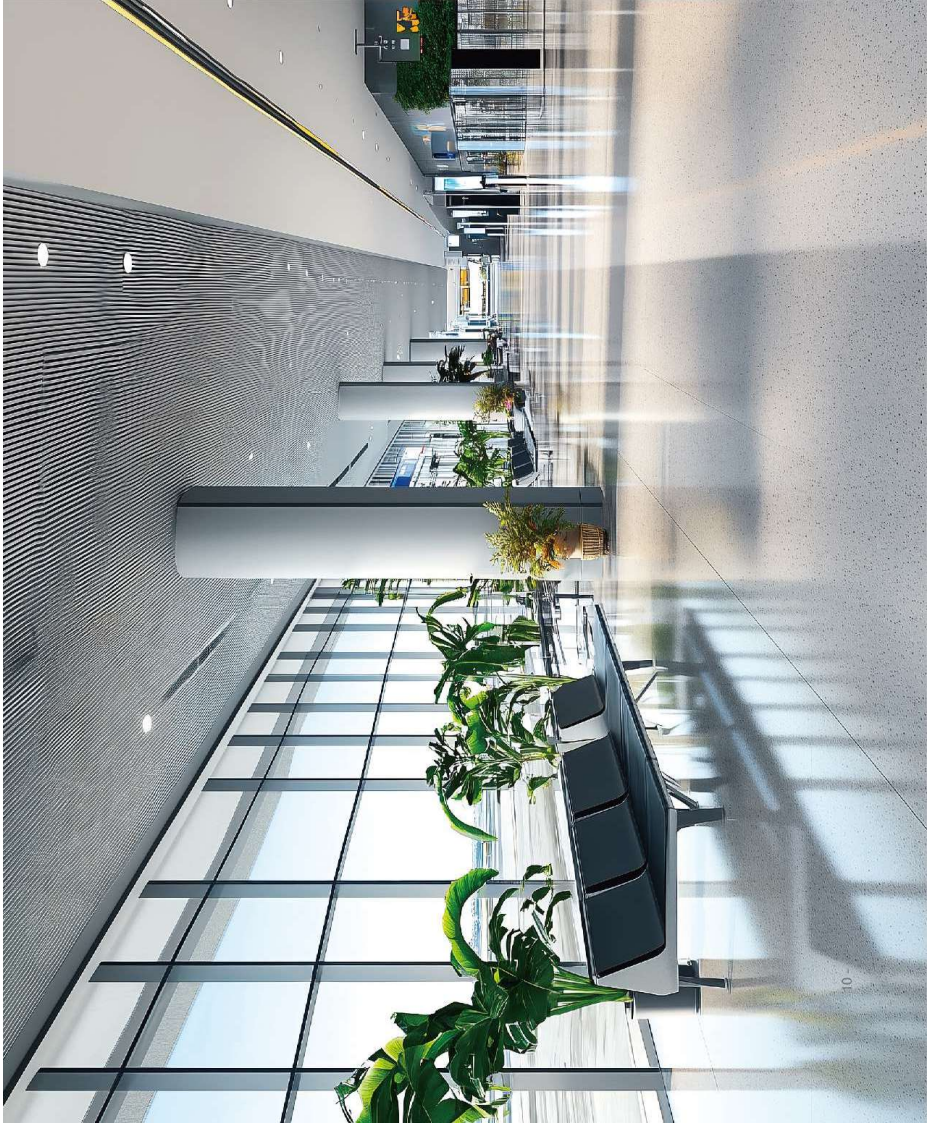

NT-30MT2 (Mechanical)

- Wall Mounted cold drinking fountain with Bottle Filler
- Rated Cooling Power: 200W
- Cold tank: 3.5L
- Capacity For Cold Water: 20L/h
- Temperature For Cold: 8-12°C
- Filter System: PP+CTO composite
- Two swan neck dragon heads
- Without UV system
- Product Size: 45x47.5x59cm
- Packing Measure: 56x52.5x65cm
- 40GP QTY: 352

NT-30MT1 (Mechanical)

- Wall Mounted cold drinking fountain with Bottle Filler
- Rated Cooling Power: 200W
- Cold tank: 3.5L
- Capacity For Cold Water: 20L/h
- Temperature For Cold: 8-12°C
- Filter System: PP+CTO composite
- A swan neck dragon head
- Without UV system
- Product Size: 45x47.5x58cm
- Packing Measure: 56x52.5x65cm
- 40GP QTY: 352

Wall Mounted
Drinking Fountain with Bottle Filler

- Nowitech bottle filling station provide clean and quick filling of water bottles, to maximally reduce the usage of disposable plastic bottles. Both build-in and wall-mounted styles are available
- Control methods of water outlet: sensing, touch and manual
- Designed as a stand-alone unit or to be paired with Nowitech cooling system
- Stainless steel body integrally formed
- Automatically filling bottle 20s by sensor for each operation
- Filling water speed 1.1GPM
- Visual filter monitor with LED indicator for displaying filter life
- Key plastic components are made of antibacterial materials which can inhibit the growth of mold and mildew, helping to provide clean, stain and odor-free surface
- UV-LED sterilization function
- Extra large water tray with drain system design
- Suitable for indoor use

Built-in wall Bottle Filler

NT-BF

- No Cooling,IR Sensor
- Stainless Steel Dispense
- UV-LED Sterilization function
- Paired with Nowtech cooling system(Optional)
- Body Product Size: 37x14,2x51cm
- Packing Measure: 56x42,5x20cm

NT-BFT

- Touch screen

NT-BFM

- Mechanical
- Without UV system

Hang on wall Bottle Filler

NT-BFB

- No Cooling,IR Sensor
- Hang on wall Bottle Filler
- Stainless Steel Dispense
- UV-LED Sterilization function
- Paired with Nowtech cooling system(Optional)
- Body Product Size: 37,2x14,7x51cm
- Packing Measure: 56x42,5x20cm

NT-BFBT

- Touch screen

NT-BFBM

- Mechanical
- Without UV system
