

SUITABLE SURFACES

Concrete

ABOUT MICROGRIP CONCRETE

GripFactory MicroGrip Concrete is the invisible anti-slip solution against slippery and / or damp floors, stairs and other surfaces made of concrete. GripFactory MicroGrip Concrete is a liquid (GRIPliquid) that makes microscopic grooves in the top layer of the smooth floor. After a treatment with GripFactory MicroGrip Concrete, nothing has changed optically on your floor, but the water can now easily flow away from under feet, shoe soles or car tires, creating more grip and minimizing the risk of slips or slides.

TECHNICAL DATA

Topic	Result
Content	5 L
Physically	Liquid
pH	1
Solubility property	Very soluble in water
Ignition temperature	Non-flammable (>60 °C)

SAFE STORAGE

Avoid sources of heat, radiation, static electricity and contact with food.

Maximum storage temperature (°C)	40
Maximum storage time (months)	60

DISPOSAL CONSIDERATIONS

Type of waste:

HP4 Irritant - skin irritation and eye damage

Waste management:

In case the container has been in direct contact with the product, it will be processed the same way as the actual product. Otherwise, it will be processed as non-dangerous residue. We do not recommended disposal down the drain.
