

ToolSense

One Platform for All Your Assets

One Central Platform for All Your Machines,
Equipment, Robots, and Vehicles.

Reduce Downtime. Cut Costs. Save Time.

Manage all your robots – across all brands – in one place!

- ToolSense lets you connect and manage any cleaning robot brand – Gaussium, LionsBot, Pudu, Nexaro, Cenobots, and more – all in a single platform. If there is a brand missing we will gladly add it for you!
- Instantly see key robot data: water consumption, error codes, runtime, cleaning tasks, and location – updated in real time via direct API connection.
- If a robot stops, ToolSense can automatically trigger troubleshooting or service workflows to get it running again.
- At no additional cost – completely free for every robot, with no monthly fees.
- No extra hardware needed – everything works via direct cloud-to-cloud integration.
