

Superyacht Deck Equipment

ABOUT US

Shipyard Supply Co's deck products have been an integral part of the superyacht supply chain since 2018. Our UK-based 600-square-metre workshop is fully equipped to handle complex fabrication, finishing, and assembly with precision and efficiency.

Known for our problem-solving mindset and engineering expertise, we work directly with yachts in build, delivering bespoke deck and garage equipment that fits seamlessly into each vessel.

Backed by experience in design engineering, materials technology, and naval architecture, our team continues to lead with innovative solutions and advanced construction methods.

We offer a hassle-free package with installation by our experienced team, ensuring everything fits and performs as intended. Conveniently located outside the EU, we also offer a clear advantage for tax-free purchasing.
