

The Fender Mate™ Bundle

By Marine Innovations Limited™

The **Fender Mate™** Bundle is a game-changing solution for quickly and securely fitting, adjusting and hanging fenders on any type of boat rail, stanchion, lifeline or cleat. Designed by **Marine Innovations™**, this device ensures your fenders are always at the correct height and stowed safely. No knots, no fuss, no damage and easy access.

Key Features

- **Easy Operation**
Easily remove, attach, adjust and hang your fenders, even while underway, keeping them off the decks and safely stowed on your rail or wire.
- **Instant Height Adjustment**
Fine-tune your fender position in seconds to suit different pontoons, quaysides, or tidal ranges.
- **Hanging your fenders**
Keep your fenders off the deck with the Fender Mate™ Bundle giving you a safe clear deck and ease of access when docking.
- **Universal Fit**
Designed to fit all standard rope sizes up to 12mm and any size rail/stanchion diameters. Can also be mounted vertically or horizontally
- **Secure Grip with No Knots**
Eliminates the need for complicated knots or unreliable ties.
- **High Quality Materials**
Made from marine-grade materials that are designed for harsh environments.

Technical Specifications

- **Material:** Moulded Nylon GF30, Polyoxymethylene & Marine grade 316 Stainless Steel Spring

- **Fits Rope Sizes:** 8mm to 12mm
 - **Colour Options:** Black
 - **Weight:** 45g
 - **Mounting Points:** Rail, lifeline, wire or stanchion, vertical or horizontal.
-

Ideal For

- Recreational boaters
 - Marina staff
 - Charter fleets
 - Sail and motorboats
-

Pack Includes

- 2 x Fender Mates™
- Adjuster with stainless steel spring
- 15” bungee ball
- Instruction video QR code
- 1 year warranty

Why Boaters Love It

“Your products aid experienced boaters, by taking the stress out of tying complicated knots. Most importantly, from my perspective as a lead lecturer in equality, diversity and inclusion, your inventions have made a great impact in developing equity of experience to those disadvantaged. “

Ben Harvey-Ashenhurst, BSc. (Hons), PGCE, MA (IoE Lond) MCCT

(Lecturer and Researcher of Mathematics Education; Equality, Diversity and Inclusion, RYA Power boat Instructor)

“The Marine Innovations ‘Fender Mate’ is a revolutionary new invention to the boating world where ease of boating and inclusivity of all abilities is certainly at the forefront of your minds. We always recommend them to our clients as they assist both experienced boaters and also those new to boating.”

Iain Harvey-Ashenhurst, ATCL FISOB

(Principal and Lead RYA Instructor - Burton Waters Boat Training)

“Not all of us find tying knots easy, especially if the dexterity in your fingers has diminished or you have arthritis in your hands.

The Adjustable Fender Mate is a very smart solution to this problem.

Admittedly, it took a while for us to fully trust it, especially the skipper who has been tying knots onboard since he was knee-high to a grasshopper.

But the Fender Mate won us over. It kept the fender in place the entire time, with no slippage or movement, even when the wash of a passing ferry battered us around.”

Katy Strickland (Editor of The Practical Boat Owner)

“Fantastic products! Great company to deal with! The items we’ve had really help make life easy! Would definitely use again and recommend.”
