

FLINpole⁺

The FLINpole⁺ is an adjustable solar module that is mounted to the pushpit using an aluminum pole. Furthermore, you can mount the FLINpole⁺ to your dinghy powering an e-motor or other devices. The solar module can be aligned at the perfect angle to the sun at any time and charges your on-board batteries with maximum efficiency.

		
Power output	50 W ⁺	100 W ⁺
Average daily yield	300 Wh	600 Wh
Dimensions	640 mm x 550 mm x 1150 mm	1075 mm x 550 mm x 1220 mm
Weight incl. rod	2.8 kg	3.9 kg
Max. wind speed	40 kn	40 kn

⁺Up to 20 % more power thanks to bifacial solar module (see page 3)

The module and the rod are connected by means of a joint. This enables simple and flexible alignment of the panel. Four ropes, which are attached to the corners of the module, run together in the clamp, with which the system is fixed and thus held in the desired position.
