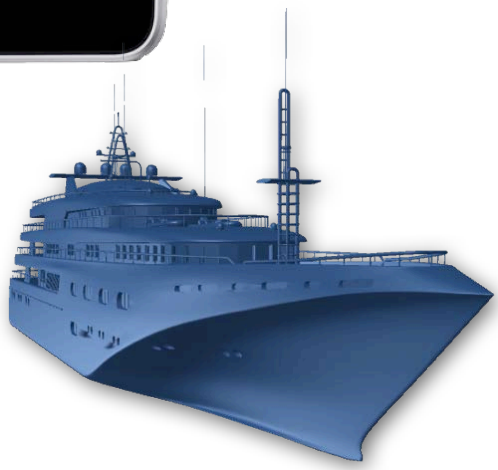
www.akumendo.com

A new generation of convergent entertainment & information system...
An unified framework of user interfaces for selective people & luxury applications...



Akumendo is more than a product line, it is a framework providing **Audiovisual & Information** (AV-IT) integrators with a comprehensive set of powerful software configurations based on open and proven web technologies…

Your technical partner is now able to build an highly featured **Entertainment & Services** system both affordable, really easy to use and adapted to the fast pace of digital evolution…

Rather than re-inventing, again and again, unjustifiably expensive proprietary products, **Akumendo** is based on widely used and robust *state-of-the-art* components and modules…

Our **Designers & Architects** team added outstanding value by the creation of elegant and highly customizable unified **User Interfaces**…

Akumendo is now the most affordable, yet most sophisticated but easy to operate AV-IT platform based on most accepted technology…

Movies, Music, Photos, News, Infos, Services and advanced workflows, are now at your fingertip with simplicity and personality…

Akumendo unified user interfaces framework is perfectly adapted to Luxury Yachts…

Providing **Owner & Guests** with commanding unique access to media libraries for leisure or business, on one side…

Providing **Crew & Staffs** with easy yet powerful and highly adaptable backoffice for informations within their workflow, on the other side…
