

Elco's outboard motors might look and feel like standard outboard motors, but beneath their rugged and durable exterior lies the proven design and leading-edge electric propulsion technology that has made our outboards the leader in power and performance. Elco outboard motors are available in a wide range of horsepower with remote or tiller control and long or short shaft lengths to fit boats of all shapes and sizes. Elco outboards look like traditional outboards because for us, they are - we've been at the forefront of electric propulsion for 130 years.

Award-Winning Electric Motors

"Elco is my top choice for electric outboards. Nothing else comes close!"

Marchant, Mary.
