## AFTERSALES

Hi, I'm having trouble with the shore power socket cap - it won't tighten properly and the thread seems damaged. What should I do?

IMAGE001.jpg

4 Sep

**From Aftersales:**

Thanks for your message. We'll replace the part under warranty and arrange a visit with a partner technician - please confirm the boat's location and a suitable date.

4 sep

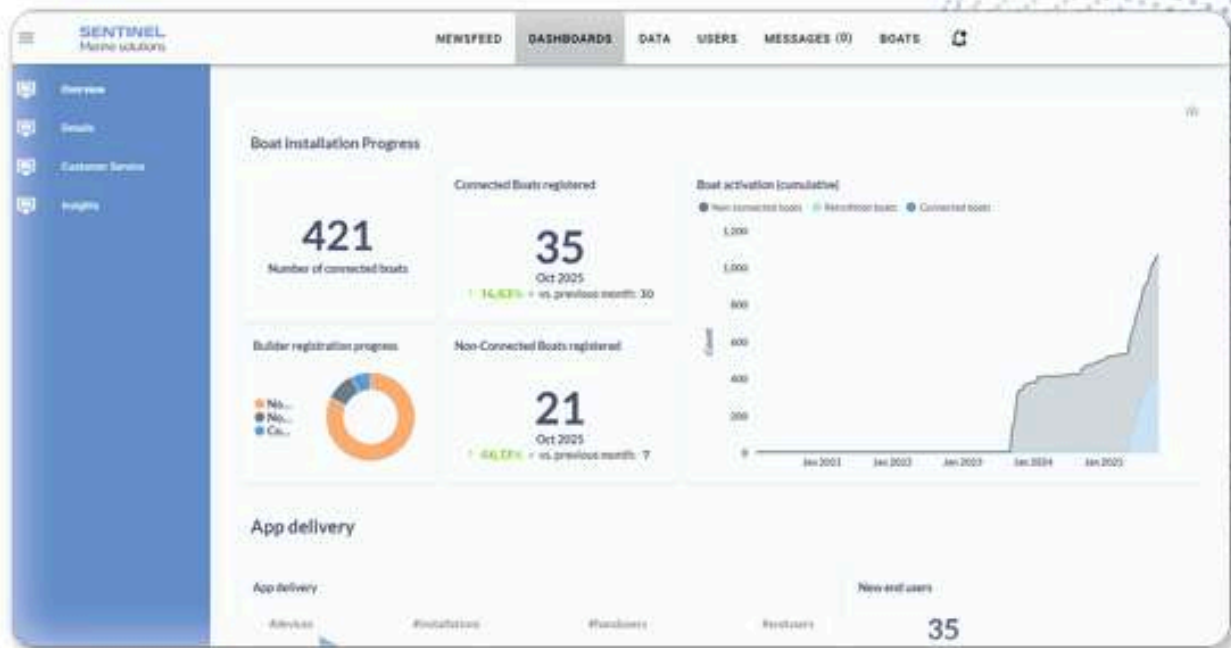

The boat is in Port de Cannes Marina Copropriete - Capitainerie. The second weekend of September would work for me.

## CUSTOMER RELATIONS - BEYOND THE REACH

In today's connected world, customer relationships don't end at delivery - they begin there.

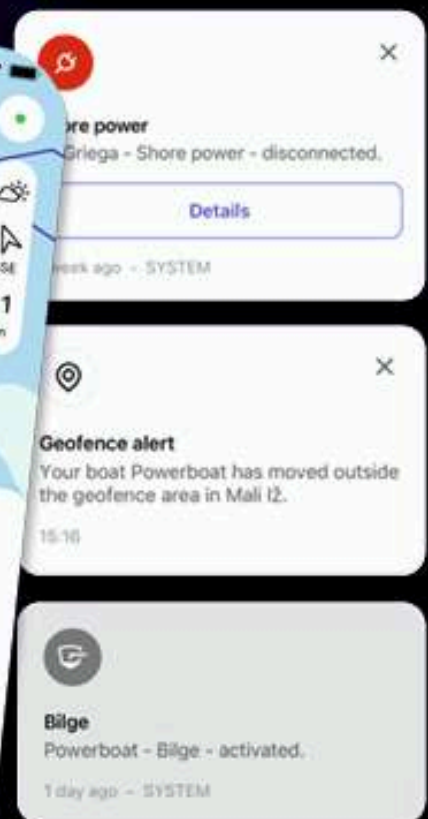

The Sentinel platform keeps **boatbuilders, distributors, and equipment manufacturers** connected with their customers - turning traditional ownership into an ongoing digital journey.

## ALERTS

## SENSORS

DELIVER A PREMIUM EXPERIENCE OF FULLY CONNECTED BOATING.

Sentinel hardware brings your products to life - enabling advanced features, smart sensors, and real-time insights that make every vessel safer, smarter, and more connected.

## BEST-IN-CLASS IOT CONNECTIVITY GATEWAY

The **Sentinel BM-50** is the core of our connected ecosystem - designed for easy installation and exceptional energy efficiency in any marine environment.

Depending on configuration, it can **integrate with onboard systems through NMEA 2000** and connect to a broad range of sensors for comprehensive system monitoring.

Available in **Lite, Standard, and Pro** versions, the BM-50 adapts to any installation - from factory-fitted solutions to retrofit upgrades.

## WIRED AND WIRELESS SENSORS

Expand the capabilities of the BM-50 to suit virtually any setup. With a wide range of compatible sensors, it delivers real-time **monitoring of shore power, bilge pumps, intrusion, temperature, power consumption**, and more.

Combined, these features provide an exceptional, connected experience designed for the **modern boat owner**.

"With years of expertise and an unwavering passion for innovation, Sentinel has reached a defining moment in its journey. What began as a vision to make boating safer and more connected has evolved into a platform that unites the entire marine ecosystem - bringing together boatbuilders, equipment manufacturers, distributors, and certified installation partners to create new ways of delivering value, insight, and innovation across the industry.

**Join us as we ride the next wave of marine innovation - shaping the future of boating together."**

- Marko Pihlar, CEO
