YOUR SAFETY EYES

LED SIGNS

LED TRAFFIC SIGNS

Key Features

- Many types of signs available by request
- High brightness LEDs
- Constant current drivers to increase LEDs lifetime
- Programmable
- High distance visibility, day and night
- Brightness control
- Several modes of operation
- Possibility of connection with other signals or signalization systems
- Powered by solar energy or grid
- Robust construction
- Easy replacement
- Low maintenance

LED BEACON

Key Features

- Ultra-brightness LEDs
- Many sizes available
- Easy to adapt to any signal
- Constant current drivers to maximize the life time of the LEDs
- Possibility of solar power supply
- Polycarbonate housing
- Easy to fix
- High reliability
- LEDs Color: White, Warm White, Red, Amber, Green, Blue
