CYB-R

COMPREHENSIVE CYBERSECURITY FOR SUPERYACHTS

As the first company to introduce cybersecurity solutions to the superyacht market in 2019, VBH continues to lead the way with **Cyb-R**, our latest **Cyber Resilience** program. Cyb-R ensures complete protection of your yacht's digital ecosystem, offering full peace of mind against evolving cyber threats.

Unlike traditional solutions that rely on proprietary hardware or software, Cyb-R utilizes the best available tools and technologies, fully adaptable to any yacht's existing systems.

Tailored to meet your specific needs, Cyb-R delivers security across the five core functions of the NIST Cybersecurity Framework: Identify, Protect, Detect, Respond, and Recover.

OUR APPROACH

A HOLISTIC SOLUTION

TAILORED TO YOUR NEEDS

Cyb-R is designed with flexibility in mind, adapting to the specific requirements of each yacht. Whether it's a new build, a refit, or ongoing management, our unique Cyber Resilience Program integrates effortlessly into your yacht's operations.
If your yacht already has certain cybersecurity measures in place, we can complement and enhance those systems, addressing only the gaps or weak areas. This approach provides comprehensive protection through the NIST Cybersecurity Framework while ensuring your existing investments are fully leveraged.

PART OF OUR DIGITAL INTEGRATION LINE

Cyb-R is part of VBH's Digital Integration line, a concept that differentiates itself from traditional system integration by focusing on the «WHY» and «HOW IT FEELS» for the end-user.
Unlike traditional approaches that center around technical functionality, Digital Integration is designed to benefit every client by ensuring that technology not only enhances the user experience but blends effortlessly into the yacht's ecosystem. In essence, Cyb-R embeds cybersecurity into the fabric of daily life onboard—always present yet never intrusive.

IDENTIFY
We meticulously assess your yacht's digital ecosystem, documenting all hardware and software, and conduct thorough risk and vulnerability assessments to pinpoint areas of concern.

PROTECT
We implement state-of-the-art security measures, including advanced firewalls, secure Wi-Fi systems, and antivirus/antimalware solutions to ensure that all systems are fortified against potential threats.

DETECT
Our continuous monitoring and advanced detection systems keep vigilant watch over your yacht's network, identifying suspicious activities and alerting the relevant parties instantly.

RESPOND
In the event of a cyber incident, Cyb-R's rapid response protocols minimize damage and swiftly restore operations, guided by a detailed incident response plan.

RECOVER
Our recovery solutions ensure that your yacht's systems can be quickly restored to full operation, with comprehensive disaster recovery plans and backups in place.

HOLISTIC PROTECTION
Cyb-R offers a comprehensive solution that covers all aspects of the yacht's digital ecosystem, ensuring it remains secure against evolving threats.

LIFESTYLE ADAPTABILITY
Cyb-R offers customizable solutions that adapt to the specific needs and lifestyles of yacht owners, guests, and crew. The service adapts to different scenarios, requirements, and onboard preferences, ensuring a smooth and personalized experience for all.

COMPLETE PEACE OF MIND
With Cyb-R, your yacht is protected 24/7 by a robust process that incorporates the most advanced tools and technologies, while also aligning human behavior onboard to mitigate risks.

FUTURE-PROOF FLEXIBILITY
Cyb-R offers full adaptability through non-proprietary technologies, allowing your system to evolve and grow with your yacht's needs. Its customizable, building-blocks approach delivers the exact level of protection required—whether addressing one or two of the five core functions or providing a full end-to-end solution.

SEAMLESS INTEGRATION
Cyb-R integrates effortlessly into your existing systems—whether your yacht is a new build, undergoing a refit, or in ongoing management—with a minimal technical footprint.

With Cyb-R, you gain more than a product—you gain a cybersecurity partner.
