

The Connected Boat

Take Better **Control** on Your Boat Everywhere

The Connected Boat

A New Era of Marine Boat Control

Welcome to Barantech, your gateway to a smarter, more elegant boating experience. As a leader in marine HMI innovative solutions, we're pleased to introduce The Connected Boat - Our groundbreaking marine control system, which revolutionizes boat control and connectivity.

Barantech's Control System offers boat owners unparalleled connectivity, transforming vessels into smart, connected ecosystems. The system integrates with both modern and legacy infrastructures to provide total control over vital functions, for seamless integration and management, all from one user-friendly platform.

At the heart of this system lies the Cruzo glass panel, but the true innovation is the comprehensive control system that brings together all major boat functionalities for seamless integration and management. The sleek, minimalist design of the Cruzo panel elevates the aesthetic of any boat while offering touch control for critical boat systems. Built to be highly customizable, the Cruzo panel works seamlessly with NMEA 2000, providing universal compatibility with new and existing boat systems. Whether controlling lights, bilge pumps, or windlass operations, the Cruzo panel ensures intuitive management with just a touch.

Advanced System Integration

Barantech's marine control system offers enhanced integration with relay packs and compatibility with multi-function displays (MFDs), allowing users to monitor and manage a wide range of boat operations. The mobile app further extends control across the entire vessel, providing convenient access from anywhere on board.

The Connected Boat Key Features

Cruzo Glass Panel

The groundbreaking glass control panel, and the heart of the Connected Boat system, powered by unique touch technology, redefines the helm of any yacht by introducing a modern look and feel while providing outstanding functionality, durability, and style.

Mobile App

Control your boat's functionalities from anywhere on the vessel using our dedicated mobile app. Whether you're in the cabin or on the deck, you have full control at your fingertips.

MFD

Our panels are designed to integrate with existing MFDs, allowing for central control and monitoring of various boat functions. This integration simplifies operation and enhances the boating experience.

Cruzo Relay Pack

Our Cruzo relay pack acts as a bridge, allowing the panels to control various electronic equipment onboard, such as lights, bilge pumps, blowers, and windlasses. This enhances the overall functionality and convenience offered by your boat.

BYOP BUILD YOUR OWN PANEL

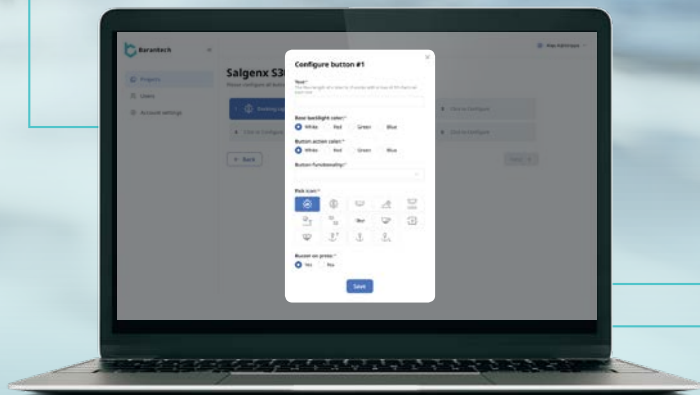

BY CRUZO

Cruzo

Where Elegance Meets Superior Functionality

The groundbreaking glass control panel, powered by unique touch piezo technology, redefines the helm of any yacht by introducing a modern look and feel while providing outstanding functionality, durability, and style. With a range of stylish options, including a sleek glass front in different sizes, and customizable backlighting in different colors, Cruzo sets a new standard in marine control systems.

Boat Guard

An End to Boat Switch Problems

This piezo touch switch retrofits 22mm pushbutton switches with ease, featuring interchangeable relay modules for maximum flexibility.

Boat Guard IOA Relay

Boat Guard 20A Relay

Boat Guard Dual 2XIOA Relay

Infinity

Unleash Endless Control: Push to Infinity

Take your boat control to a new level with the Infinity switch - where innovation meets excellence. Designed to exceed expectations with its state-of-the-art piezo touch technology, robust design, captivating illumination, and continuous push functionality, this switch sets a new standard for excellence on the water.

MarineTouch Pro6

Aluminum Switch Panel: Mastering Marine Control

Embark on a new era of control with the MarineTouch Pro6 aluminum switch panel. Our dedication to precision engineering and cutting-edge design has yielded a control panel that blends seamlessly with your vessel's technology landscape. Whether you're a captain, an engineer, or anyone who values optimal control, our switch panel ensures you stay in command, no matter the conditions.

MarineTouch 4Key Aluminum Switch Panel: Mastering Marine Control

Upgrade your marine experience with our MarineTouch 4Key control panel - the ultimate solution for modern boat and yacht control. Designed to seamlessly integrate into your vessel, this state-of-the-art 4-button control panel brings a new level of ease, versatility and performance to your fingertips.

Solo

Luxurious Glass Look, Completely Sealed

With a sleek glass look and a completely sealed design, Solo features a front glass panel and stainless steel housing. It blends striking piezo touch technology with elegant aesthetics, making it perfect for withstanding the harsh marine environment.
