

Circuit Protections

YIS x tigerexped tigerfuse Connect Fuse Blocks

New Product PATENTED Pending

BF261 6 Way fuse block with ground bus bar

BF262 12 Way fuse block with ground bus bar

Jointly developed together with real-life camper van lovers for real-life camper van conversions – to finally provide a simple solution to recurring problems. The new YIS x tigerfuse connect 6 & 12 fuse holders offer features that significantly simplify installations and make a real difference in tight installation situations.

Features

- Tool-free installation with levers actuated terminal blocks – no more crimping!
- 2 x Main positives and negatives on either side for flexible wiring and easy cascading
- Supports 6 or 12 individual circuits with plus and minus terminals side-by-side for each port (same side of the unit).
- Modular expandable design – easy to cascade electrically and mechanically without gaps (Total Max 70A)
- ISO8846 ignition protected cover with all-around seal locking side clips design
- Patent pending side clips that holds covers when opening – no fumbling or loose parts!
- Fuse blown LED indications- works both ways! (also works when current flowing from loads to battery)
- Built in convenient spare fuses slots (2 slots for 6P and 4 for 12P)
- Label sticker sets included
