Gateway to Technology: Marine Audio® and Polk Ultramarine® now compatible with NMEA2K

FOR IMMEDIATE RELEASE

ELKHART, IN. – Marine Audio® and Polk® stereos can now be taken to the next level! Three of ASA Electronics' leading stereos, the Marine Audio® MA400, Polk Ultramarine® PA4A and UM1A, are now compatible with the NMEA2K network. Our NMEA2KGTWY, a stand-alone gateway box, facilitates communication from these stereos to GPS devices and chart plotters. Using our already top of the line, app ready stereos, this gateway creates functions never seen before in Marine Audio® and Polk® stereos and provides price point and branding opportunities previously not available in the Marine Industry.

ASA Electronics has been designing and manufacturing mobile electronic products for the Marine, RV, Van, Commercial, Bus and Limo industries since 1977. Their proprietary brands are JENSEN®, JENSEN Marine®, JENSEN Heavy Duty®, Marine Audio®, Voyager® and Advent®. ASA is also a distributor in specialty markets for SiriusXM Satellite Radio and Polk products. For more information, please visit www.ASAElectronics.com.
