# SUN SCREENING SYSTEMS FOR SUPERYACHTS

# Who we are

Since **1979**, AGB Design has been a premier atelier specializing in the **design and production of luxury sun screening systems** for the **global Superyacht market**. Based in **Lucca, Tuscany**, the company has completed more than **300 Superyacht projects** - from 26 to 100+ meters - collaborating with the world's most prestigious shipyards, naval architects, and design studios.

Our custom shading solutions elevate onboard living through silent operation, refined finishes, and total adaptability to the marine environment.

AGB Design merges **Made in Italy elegance** with advanced engineering. From concept to installation, every blind system is tailored to fit the form and soul of each vessel.

We serve:

- **Super Yachts**
- **Flagship boutique yachts**
- **Custom refits and new builds**

# Where we are

## ITALIAN EXCELLENCE

Based in **Lucca, Tuscany**, a region famed for its heritage of design and craftsmanship, AGB draws from centuries of textile and mechanical expertise.

Shipyards of Versilia coast are at only 20 minutes.

Each product reflects the artistry and precision of true **Made in Italy**.

# What we do

## SUPERYACHT DELIVERY RECORD

Length Range	Projects Completed
26–40 meters	212+
41–60 meters	61+
61–80 meters	18+
Over 81 meters	9

### Total:

More than **300 verified Superyachts** supplied, plus many many other yachts (< 26 mt) and dozens of Cruise Boats. A detailed **reference list** is available.

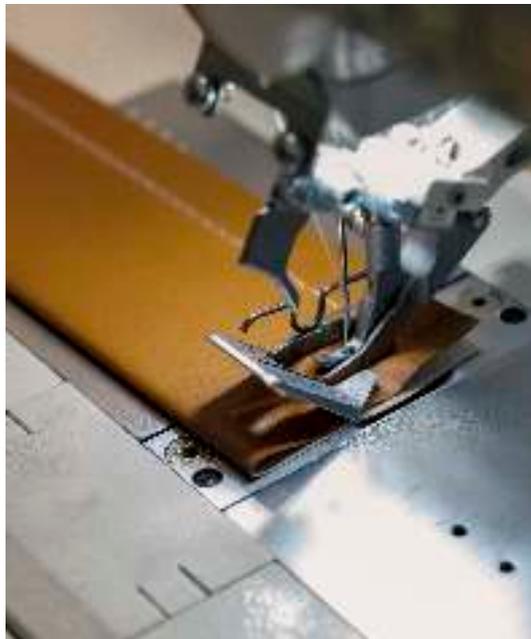

AGB develops **premium sun screening solutions** suited to all areas onboard:

- **Owner & Guest Cabins**
- **Crew Quarters**
- **Skylights & Sloped Panels**
- **Salons & Lounges**
- **Outdoor shaded zones**

# Mission

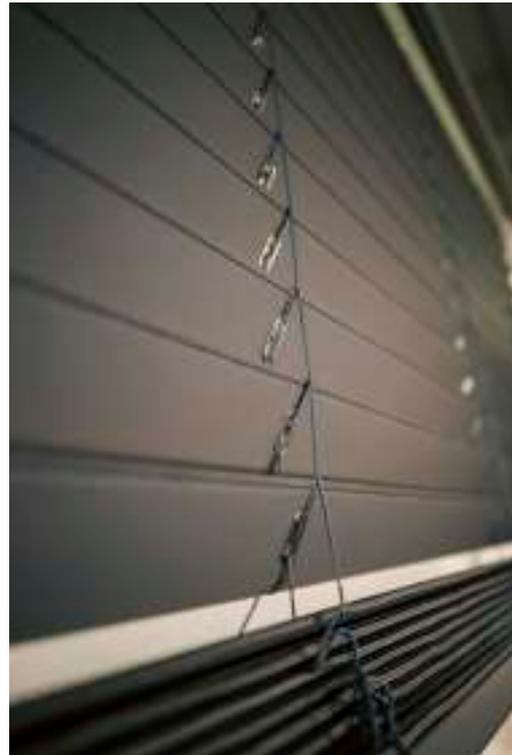

**AGB Design works with passion to improve its Sun Screening Systems**, both for indoor and outdoor use, in order to offer customers an exceptional experience aimed at fostering long-term collaboration.

## **Agb Design**

constantly renews its creativity to expand and develop its product portfolio by adding materials, accessories, fabrics, and automation systems, while remaining true to its core values.

# Values

## INNOVATION

Constantly investing in machinery, materials, and innovative technologies to create products that comply with current trends and meet customer needs.

## FLEXIBILITY

Maintaining a global market vision and awareness of demands and relevant requirements, while ensuring an agile organization capable of being your partner for customized, high-quality solutions.

## CUSTOMER CARE

Focusing on the customer by respecting delivery timelines and taking care of every detail. We provide not just products, but also turnkey solutions that may include complete on-site installation.

## SUSTAINABILITY

Paying attention to sustainable production development in line with international goals, environmental standards, and compliance with current safety and environmental regulations

# Strengths & differentiators

- 1 **FULL VERTICAL PRODUCTION**
- 2 **ADVANCED TECHNOLOGY**
- 3 **CUSTOMIZATION**
- 4 **QUALITY / COST RATIO**

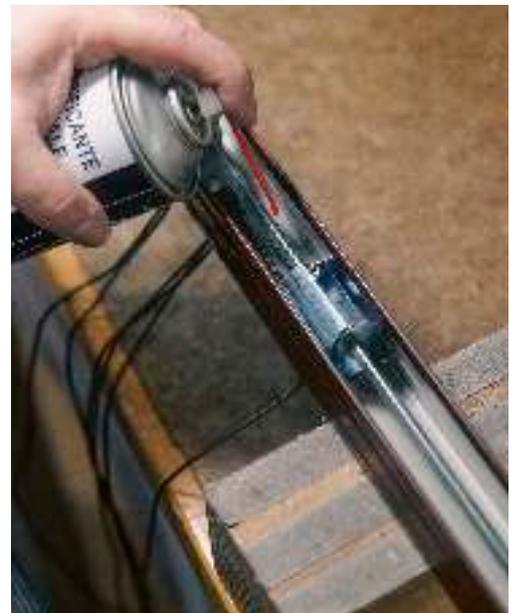

# 1

## **FULL VERTICAL PRODUCTION**

Design, extrusion, sewing, assembly, testing, installation

AGB designs, extrudes and manufactures blinds, tracks, and accessories, sews the fabrics, assembles, tests, and installs the blinds.

Thanks to this comprehensive expertise and in-depth knowledge of solar shading systems, AGB operates more effectively than those who merely distribute or install blinds

# 2

## ADVANCED TECHNOLOGY

AGB keeps up with technological advancements – both through state-of-the-art production machinery (such as ultrasonic cutting and welding, automatic bending machines, etc.) to ensure high-quality standards, and through partnerships with market-leading companies in motorization, home automation, fabrics, materials, and accessories.

As per mototors these can be: Ultra-silent operation, Battery-powered models, RF and BUS compatible systems, Integrated yacht automation controls.

All systems are available with IMO-certified fabrics.

# 3

## **CUSTOMIZATION**

100% Made in Italy craftsmanship

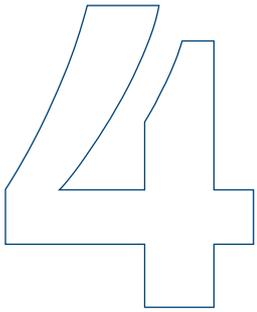

AGB combines the expertise of a large company with the craftsmanship of a production Atelier, offering not only excellent products but also customized solutions based on client requests, with flexibility in production and delivery schedules.

### **Personalized support from concept to launch**

Global installation and warranty coverage

And on top of that we offer 100% Made in Italy craftsmanship

## **QUALITY / COST RATIO**

AGB Design offers an unbeatable quality-to-cost ratio, paired with customer care and a flexible, efficient service you won't find elsewhere.

# Indoor technical blinds

Originally developed for the B2B market, this line has now entered residential spaces as well. These are finished products: tracks and fabrics pre-assembled. The technical curtains can be **operated manually or motorized** (with a wide range of motors) and come complete with various AGB accessories.

Each curtain is customized according to the Client's project: dimensions, fabric type, movement system, accessories.

AGB's strong point lies in its Roller Blinds and Venetian Blinds (in wood or aluminium), finely stitched and upholstered in leather – where technology meets artisanal craftsmanship to create a product with the typical attributes of Luxury.

- **Roller Blinds**
- **Venetian Blinds, - in wood, aluminum, or leather covered**
- **Honeycomb Blinds**
- **Vertical Striped Blinds**

All systems are available with **silent motors, smart automation**, and IMO-certified fabrics.

# Indoor professional line

This line includes over 50 curtain tracks (profiles designed, extruded, and manufactured by AGB), suitable for every technical and stylistic requirement.

Thanks to AGB's production process, profiles can be curved, bent, or custom-painted on request.

Curved profiles (manual or motorized) are ideal, for example, for showrooms, yacht cabins, and fashion show stages.

The profiles range from 1 to 7 channels, and in some models, they can reach up to 7000 mm in width.

- Roman Blinds
- Motorized skylight covers
- Curled Blinds
- Panel Curtains

# Decorative line

A line created for B2C and therefore for domestic spaces, suitable for curtains with hand-pull or cord operation.

This line includes over 70 profiles (designed, extruded, and manufactured by AGB), tailored for every interior design and style need.

- **Decorative Profiles**
- **Curtain Rods**

# Outdoor

For outdoor awnings, AGB offers solutions that combine technical performance with a clean, elegant style, available both under third-party brands and its own. Various configurations are available, including manual or motorized operation, accessories, and fabrics.

- **Bioclimatic Pergolas**
- **Pergotende (Retractable Pergolas)**
- **Zip Awnings**

Bioclimatic pergolas are characterized by adjustable slats that rotate to create the desired climatic comfort. Movement is automatic and silent; just a few minutes are enough to lift or fold the slats, naturally harnessing external elements such as wind and sunlight.

These pergolas can be perfectly integrated into residential contexts and offer natural climate comfort, enhanced by the possibility of adding side closures (glass panels or technical vertical fabrics). This makes them one of the most appreciated solutions for optimizing terraces, gardens, and rooftops.

The adjustable sunshade slats rotate from zero to several degrees, allowing variable inclination depending on the desired shading and air circulation, thus sustainably regulating the internal temperature of the pergola. Vertical awnings are concealed within the profiles, and optional features include furnishings and LED lighting.

# Markets & business sectors

AGB serves various business sectors and markets, in some of which it is a national leader.

AGB Design's **Sun Screening Systems** are installed for a range of high-end and luxury clients, including:

- **Yachts**
- **Super Yachts**
- **Top fashion brands**
- **Luxury Hotel & Suites**
- **Luxury Residential**

These include both sailing and motor yachts, ranging from 30 meters to over 100 meters in length, Luxury end hotels (5 to 7 stars) located in charming and exclusive destinations, villas and homes with special design, and unique residences, Showrooms and boutiques of top fashion brands.

# Partners & networks

AGB works with a wide network of partners to have its **Sun Screening Systems** installed at client sites and final locations.

- **Shipyards**
- **Marine carpentry workshops**
- **Marine upholstery firms**
- **Architectural and interior design studios**
- **Yacht contractors and outfitters**
- **Contractor companies**
- **Upholsterers**
- **Window and door installers**

# End customers

AGB Sun Screening Systems are installed on board yachts delivered by world-class shipyards such as:

and international giants like:

# Customer care

AGB Design's customer service combines **efficiency, flexibility, and courtesy** - qualities that only an **experienced atelier** like AGB Design can offer.

AGB Design products are covered by warranty and comply with international safety regulations.

Even when working through partners, AGB Design is always available to support end customers.

Upon request, AGB Design can also provide **installation** services, both in Italy and abroad.
