THE NATIVE FOOD

Join the Tribe

Tribe

Since 2016, Globaltribe has been introducing the world to the authentic flavours of the Amazon region, offering proven health benefits and unparalleled indulgence. Globaltribe has partnered with local producers who practice chemical-free cultivation and harvesting, in accordance with the traditional agricultural methods of the region's natives.

More than just business partners, partners for a better and more sustainable world.

Together we protect habitats and preserve cultures!

Nature provides,
Tribe improves

We keep healthy,
what is healthy!

Mission

Our mission is to transform fruits with high nutritional values into sorbets while promoting sustainability, driven by a passion for the exotic and a commitment to health.

Vision and Values

Our goal is to become a leading player in both national and international markets, known for the quality and excellence of our products.

We are guided by our values of passion, transparency, quality, innovation, social responsibility, and sustainability, which reflect our vision.

Organic Products

Organic Freeze-dried Açaí

Lyophilisation is a process that involves the **sublimation of water** from a product. It is also called the noble process of dehydration, as it is the **most technological** procedure available.

Unlike heat or air drying processes, which alter the structure of the product, this process allows all the water present in a medium to be removed **without the item losing its properties**.

Tribe's organic freeze-dried açaí preserves all the characteristics of this superfood, including vitamins, minerals, and anthocyanins, which give it its high antioxidant content and strong, dark purple colour.

PT-BIO-03
Agricultura não-UE

Tribe's organic freeze-dried açaí is perfect for adding to smoothies, yoghurt, fruit bowls, desserts and other dishes.

Versatile and practical, **Tribe's organic freeze-dried açaí** allows you to enjoy the nutritional benefits of açaí and enhance your recipes quickly and easily.
